**NOTE:**

Students writing core achievement tests in French are included in the data.

\* Cohort Reporting takes into account all students registered at each grade level, not just students who wrote the tests.

\*\* 2011 was the first year in which all students wrote the Mathematics test based on the revised Program of Studies; therefore, it is not appropriate to compare it to the previous year's results.

\*\*\* Social Studies results from 2011 represent the second year that district students wrote a test based on the revised Program of Studies. Generally, to draw meaningful conclusions regarding student achievement on such a test, three years of data is recommended.

**NOTE:**

Students writing core achievement tests in French are included in the data.

\* Cohort Reporting takes into account all students registered at each grade level, not just students who wrote the tests.

\*\* Given that the new Mathematics test based on the revised Program of Studies was written by all students in the province, comparisons between District and Provincial results are appropriate.
