ISSUE

Alberta Education and Childcare requires school jurisdictions to submit an Annual Education Results Report (AERR) by November 30, 2026. This year's AERR reports on the Division's progress for the 2025-26 school year.

RECOMMENDATION

1. **That the Edmonton Public Schools' 2025–26 AERR be approved.**

BACKGROUND

School jurisdictions are required to annually report on their results guided by Alberta Education and Childcare's Assurance Framework.

The AERR is legislatively required as per the *Education Act,* Section 67; Sustainable Fiscal Planning and Reporting Act, Section 10; *Education Act*, School Councils Regulation (94/2019), Section 12; and Ministerial Grants Regulation (AR215/2022), as amended, Sections 3 and 8.

The AERR serves as part of the annual planning, reporting and monitoring cycle the Division uses to advance its strategic direction, as set out in the 2022-26 Strategic Plan. The AERR reflects the Division's progress over

the past year in support of high-quality public education and meeting the Division's priorities for 2025–26 as set out in year four of the 2022–26 Four-Year Education Plan. In collaboration with families and community, we continued our efforts to empower every student to live a life of dignity, fulfillment, empathy and possibility.

RELATED FACTS

- Each year the Division submits an AERR to Alberta Education and Childcare.
- The AERR serves as one of the planning, reporting and monitoring tools the Division uses to advance its strategic direction and demonstrate accountability.
- The draft report coming forward for Board of Trustees approval meets all reporting requirements set out by the province.

OPTIONS

Based on the information provided in this report, the following options are considered most appropriate:

1. Approve the 2025–26 AERR as written.
2. Provide feedback and request changes be made to the 2025–26 AERR prior to submission to the province by November 30, 2026.

CONSIDERATIONS and ANALYSIS

The Division is required to submit an approved version of the AERR to Alberta Education and Childcare by November 30, 2026.

NEXT STEPS

Upon approval, the final AERR will be submitted to the province and posted for public awareness on the Division website by November 30, 2026.

Message from the Board Chair and Superintendent

Edmonton Public Schools is honoured to have served over 121,000 students and their families in the 2025–26 school year. We believe that an investment in children is the best investment we can make as a society. Public education is a fundamental good, positively impacting productivity, income, civic participation and health[1]. Our work in support of student success is guided by this belief, which is reflected in the 2022–26 Division Strategic Plan, and our actions are grounded in our Cornerstone Values—*Accountability, Collaboration, Equity and Integrity*.

Foundational to a thriving school community and student success is the strong partnership between families and educators. The importance of this partnership unfolds every day across our school communities as we work together in support of student success.

This year's Annual Education Results Report reflects the Division's progress over the past year in support of high-quality public education and meeting the priorities for 2025–26 as set out in year four of the 2022–26 Four-Year Education Plan. This report summarizes our collaborative work with families and the community over the 2022–26 Education and Strategic plans. As we wrap up these initiatives, we are proud of our progress in empowering every student to live a life of dignity, fulfillment, empathy, and possibility, and we are excited to carry this momentum into our 2026–30 strategic work.

We are proud to share our story and results with you.

Holly Nichol
Board Chair

Ron Thompson
Superintendent of Schools

Accountability Statement

Under the direction of the Board of Trustees, the Annual Education Results Report for Edmonton Public Schools for the 2025–26 school year was prepared in accordance with the responsibilities under the *Education Act* and the *Sustainable Fiscal Planning and Reporting Act.* The Board is committed to using the results in this report, to the best of its abilities, to improve outcomes for students and to ensure that all students in the school authority can acquire the knowledge, skills and attitudes they need to be successful and contributing members of society. This Annual Education Results Report for 2025–26 was approved by the Board of Trustees on November xx, 2026.

Holly Nichol
Board Chair
(original signed)

2022–26
Division Strategic Plan

Priority 1

Build on outstanding learning opportunities for all students.

Goal 1
Recognize and support the diverse learning needs of all students.

Goal 2
Focus on literacy and numeracy so students demonstrate growth and achieve learning outcomes.

Goal 3
Promote competencies to empower students to meet the needs of a changing society, workforce and climate.

Priority 2

Advance action towards anti-racism and reconciliation.

Goal 1
Work with students, staff, families and communities to update and advance the Division's Anti-racism and Equity Action Plan each year, so it serves as the catalyst for meaningful, long-term systemic change.

Goal 2
Support and enhance the educational experiences and achievements of First Nations, Métis, and Inuit students in relationship with First Nations, Métis, and Inuit families and communities.

Priority 3

Promote a comprehensive approach to student and staff well-being and mental health.

Goal 1
Support students and staff in building skills, strategies and relationships that contribute to positive mental health.

Goal 2
Support students and staff so they experience a greater sense of belonging and social, emotional and physical well-being.

EDMONTON PUBLIC SCHOOLS

How to Read this Report

The Annual Education Results Report (AERR) serves as a comprehensive accountability tool that gathers data from many sources. To provide a transparent overview of Edmonton Public Schools' activities in support of the fourth year of the 2022–26 Four-Year Education Plan, this report has been organized and designed to promote clarity. As a Division, we are accountable to Alberta Education and Childcare, and the following guiding documents:

- Alberta Education and Childcare oversees provincial education policy and regulations and as such the AERR reports on provincial requirements as outlined in the 2026–27 Funding Manual for School Authorities.
- Edmonton Public Schools selects local measures that are outlined in the Division's 2022–26 Four-Year Education Plan, which was informed by the 2022–26 Division Strategic Plan and the Alberta Education and Childcare: Ministry Business Plan 2024–27.

This report will include the following sections:

- Who We Are: introducing our Board of Trustees and Division Leadership.
- Accountability and Assurance: our evaluations through the Alberta Education and Childcare Assurance Measures (AECAMs) and avenues for Division and school-level engagement.
- Progress towards each of the three Strategic Plan Priority areas, specifically referencing Outcomes, Goals and Strategic Actions that were identified within the 2022–26 Four-Year Education Plan, as well as any additional actions taken to enhance pathways for student success.
- Summary of our Financial Results from the Year.
- Annual Report of Disclosures.
- Appendices for supplementary data on our Division's work that may be helpful for understanding our story.

Coloured tables are used to clarify the data sources for both provincial and local measures utilized in this report, as per the charts below:

Provincial Assurance Measures

Assurance Measures from Alberta Education and Childcare are indicated in the gray headers.
In addition, when presenting our *Required Alberta Education and Childcare Assurance Measures—Overall Summary* table (*e.g. Table 2, page 14*), we have included the provincial measure evaluation terminology (achievement, improvement and overall) and colours for a clearer picture of our students' current educational standing in Alberta. We have applied this comparison information to all provincial assurance tables in the report where available. Every year, the province assesses performance across all school authorities through assurance measures, including the Alberta Education and Childcare Assurance (AECA) survey, Provincial Achievement Tests (PATs) in Grades 6 and 9 and Diploma Exams results, as well as three-, four- and five-year high school graduation, drop out, Rutherford Scholarship and transition rates. These results are categorized using Alberta Education and Childcare's colour-coded system and indicators, as shown in the chart below.

Achievement	Very Low	Low	Intermediate	High	Very High
Improvement	Declined Significantly	Declined	Maintained	Improved	Improved Significantly
Overall	Concern	Issue	Acceptable	Good	Excellent

Note: For a detailed breakdown of each level's calculation and measure evaluation, refer to *Appendix A*.

Local Data and Measures

Local Data from Edmonton Public Schools indicated using the colour palette from the 2022-26 Strategic Plan (yellow, blue and orange)

Local data sources include the Division Feedback Survey (DFS), Extended Student Demographic Survey (ESDS), and Belonging and Safety Division Data.

In addition, local data also includes anecdotal information for observed trends and tendencies from the multiple pathways of Division-level engagement, including: advisory committees, community consultations, communities of practice, and catchment conversations.

Who We Are

Board of Trustees

Edmonton Public Schools proudly served over 122,000 students in the 2025–26 school year. This work was done under direction set out in the *Education Act*. This responsibility is fulfilled by providing oversight and stewardship to public education, evaluating and reporting on results achieved and setting priorities and policies that provide overall direction for the Division and provide each student with the opportunity to achieve their potential. Learn more about the Board of Trustees at: epsb.ca/ourdistrict/board.

Left to right: Sherri O'Keefe *(Ward A),* Sarah Doll *(Ward E)*, Linda Lindsay *(Ward B)*, Nickela Anderson *(Ward D)*, Saadiq Sumar *(Ward G)*, Jan Sawyer *(Ward I)*, Julie Kusiek *(Ward F)*, Holly Nichol *(Ward C)*, Melanie Hoffman *(Ward H).*

Division Leadership

The Superintendent, with the support of the Division Support Team (DST), provides advice and support to the Board of Trustees, ensures the Division meets expectations set out in board policy, administrative regulations and all relevant legislation and works toward the goals and outcomes of the 2022–26 Division Strategic Plan. The 2025–26 Division Support Team was comprised of:

Ron Thompson Superintendent of Schools

Angela Anderson	Chief Human Resources Officer	**Kathy Muhlethaler**	Assistant Superintendent, Instructional and Strategic Division Supports
Todd Burnstad	Chief Financial Officer	**Nancy Petersen**	Managing Director, Strategic Division Supports
Grace Garcia Cooke, KC	General Counsel	**Kent Pharis**	Assistant Superintendent of Schools
Andrea Cooper	Assistant Superintendent of Schools	**Cliff Richard**	Chief Infrastructure and Technology Officer
Kelsey Duebel	Director, Board and Superintendent Relations	**Carrie Rosa**	Managing Director, Communications
Martin Fechner	Assistant Superintendent of Schools	**Liz Yule**	Assistant Superintendent of Schools

Division Overview

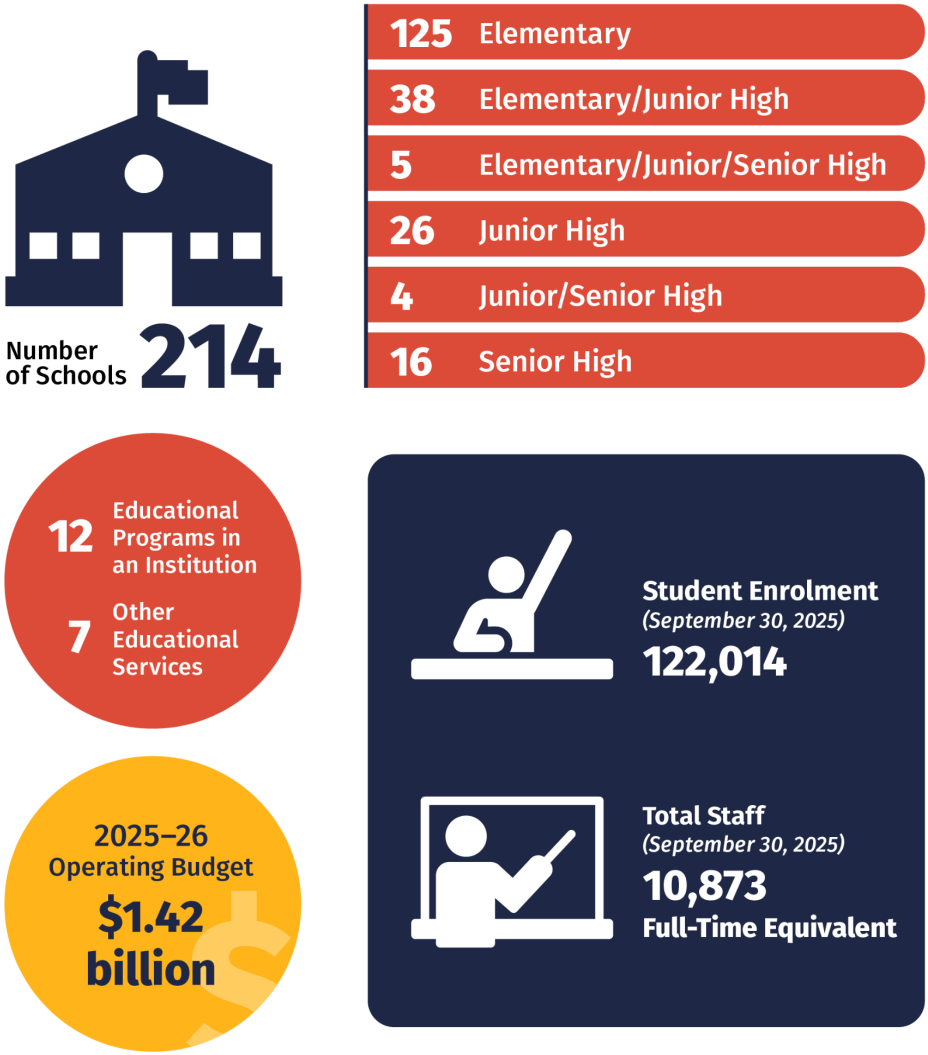

The Division is committed to enhancing pathways for success for every student we serve. This work is a collective responsibility shared among the Board of Trustees, senior leadership, staff, as well as families and community members who, together, strive to fulfil the Division's 2022–26 Vision: *Enhancing pathways for student success.*

To meet the diverse range of students' learning needs and to support family choice, the Division offers many educational program options, including regular programming from Kindergarten to Grade 12, more than 30 alternative programs and 13 specialized programming options, including Pre-Kindergarten. A comprehensive list of all programming from Edmonton Public Schools can be found on epsb.ca.

In the fall of 2025, 61 public, separate and Francophone school divisions across the province were involved in labour disruption, resulting in an interruption of learning for all students during the month of October.

In response to the feedback from teachers, families, school divisions and communities around the challenges of complex classrooms and class sizes, the Province announced additional targeted funding. For the Division, this amounted to $82 million, out of which $5 million was spent in 2025-26, with the remaining balance of $77 million being available for the 2026-27 school year. The Division values this investment, which provided additional support and helped to strengthen learning environments where students and staff can thrive.

Figure 1. *Edmonton Public Schools' Educational Infrastructure and Demographic Overview for the 2025–26 School Year*

Student Profile

In September 2025, the Division welcomed over 122,000 students into our schools, an increase of 1.5 per cent over the previous year. Over the four years of the 2022–26 Strategic Plan, the Division has experienced a 11.1 per cent growth in overall student enrolment, while Edmonton experiences a net population increase of 15.3 per cent, as per provincial population data[2]. The Division's greatest increase was in the number of special education-coded students, where the rate of change was 32.3 per cent between 2022 and 2025. This trend in enrolment is further broken down by year in Table 1 for a more detailed understanding.

Table 1 showcases four elements of enrolment data for the past four years: overall student enrolment, English as an Additional Language learners (EAL), self-identified First Nations, Métis, and Inuit learners and students meeting provincial special education coding requirements, as calculated at the end of September of every school year.

Table 1. Student Profile—September	2022	2023	2024	2025	Net Change Over 4 Years (%)
Total students	109,840	115,176	120,198	122,014	11.1%
English as an Additional Language students	26,068	29,159	28,674	27,810	6.7%
Self-Identified First Nations, Métis and Inuit students	9,227	9,299	9,221	9,506	3.0%
Special Education-Coded students	13,370	14,535	16,562	17,683	32.3%

Accountability and Assurance

Edmonton Public Schools' AERR celebrates the Division's accomplishments and highlights the results from the 2025–26 school year. The AERR provides an annual overview of Edmonton Public Schools' commitment to advancing both our Division priorities and those of the province. As well, the AERR complements the other reporting available, including School Plans and Results Review (*see Appendix B*), Catchment Conversations and other updates to the Board of Trustees. Within the Division's culture of evidence-based decision-making, these reporting processes help the Division to monitor for progress, reflect on what has been accomplished, determine strategic actions and the best use of resources. As well as data, the Division also uses student voice, feedback from families, partners and members of the community to help inform ongoing work. This approach reflects alignment with the intent and structure of the provincial assurance framework.

Evidence-based decision-making is central to the Division's assurance model, where provincial and local data is used to monitor for progress, reflect on the impact of our actions and celebrate what has been accomplished. This information helps to inform decisions around the use of resources.

Foundational to the planning and reporting cycle are the Division's Vision, Mission, Values, 2022–26 Division Strategic Plan, 2022–26 Four-Year Education Plan and the current Alberta Education and Childcare Ministry Business Plan. These are brought to life through the shared leadership and responsibility of the Board of Trustees and Division and school leadership. All of these pieces come together to form the basis of accountability and assurance within the Division. A critical component of reporting and assurance for the Division is the budget planning and Results Review processes, where central units and schools reflect on their results and establish plans. This work is evidence-based and includes engaging with staff, students and families. From this, the Division develops its annual AERR and Four-Year Education Plan.

Upon approval from the Board of Trustees, the AERR will be posted on the Division's website at epsb.ca/ourdistrict/results/aerr and then be submitted to Alberta Education and Childcare by November 30, 2026. As well, results review documents and budget plans are available on epsb.ca.

Alberta Education and Childcare Assurance Measures

The Alberta Education and Childcare Assurance Measures (AECAMs) serve as one source of information, guiding our efforts towards continuous improvement. The following four tables (*see Tables 2–5, starting on page 14*) provide a summary of Division results through the lens of Alberta Education and Childcare's five assurance domains:

- Student Growth and Achievement
- Teaching & Leading
- Learning Supports
- Governance and Local
- Societal Context

Each assurance domain can have one or more measures, which can include student achievement results and/or survey results. The primary purpose of the education system is student achievement and growth, which is the core outcome for the assurance framework.[3] Within its local and societal context and under the direction of our 2022–26 Division Strategic Plan, Edmonton Public Schools supports each of its students to live a life of dignity, fulfilment, empathy and possibility through the work undertaken in support of student growth and achievement. The work engaged in by the Division in respect to the other four domains supports and strengthens the efforts focused on student growth and achievement.

[3] Alberta Education and Childcare Funding Manual 2025–26, p.30.

Data Updates

Assurance Survey	In 2024–25, there was a change to the process for inviting families to participate in the provincial Assurance Measures survey[4]. Historically, Alberta Education and Childcare mailed a survey invitation directly to families; however, in 2024–25, school divisions were asked to share the provincial survey invitation with their families directly. At Edmonton Public Schools the survey invitation is sent directly to eligible families via email. Overall, 26 per cent fewer families completed the survey in 2025–26 than in 2023–24, the last year before the change occurred.
Provincial Achievement Tests (PATs)	**In the 2025–26 school year, the status of Grade 6 Provincial Achievement Tests (PATs) administered were:** ● New Curriculum: ○ English Language Arts and Literature 6, Mathematics 6, French Immersion Language Arts and Literature 6 année, Français langue première et littérature 6 année, and Science 6 ● Optional Implementation: ○ Social Studies 6 **Grade 6 aggregate PAT results are not available:** ● Aggregate reporting is for tests that have achievement standards and are administered to all students across the province. No Grade 6 tests administered in the 2025–26 school year met these criteria. Grade 9 aggregate PAT results: ● Participation in Grade 9 PATs was affected by the cancellation of the January 2026 sitting. Caution should be used when interpreting trends over time for the province and school authorities affected by this event.
Diploma Examinations	**Impact of the cancellation of January 2026 administration:** ● Diploma Examinations results for 2025–26 do not include the results of the January 2026 Diploma Examinations administration. Subsequently, Diploma Examinations results for the 2025–26 school year are: ○ not evaluated against the provincial standards (Achievement) or previous 3-year averages (Improvement); ○ included in the calculation of future provincial standards; and ○ included in the calculation of 3-year averages used to evaluate improvement of future provincial assessment results. ● Caution should be used when interpreting trends over time. **Updating provincial standards for Diploma Examinations** While Diploma Examinations results cannot be evaluated against provincial standards for 2025–26 (Achievement), new provincial standards have been calculated for: ● Mathematics 30-1 and Mathematics 30-2; and ● Diploma Examinations aggregate for Acceptable Standard and Standard of Excellence.

[4] See this site for the specific Alberta Education and Childcare Assurance (AECA) survey questions that make up the measures in each Assurance Domain.

In order to accurately interpret all AEAM tables in this report, please note the contextual information below that has been provided by Alberta Education and Childcare and is necessary to fully understand the data:

Notes:

1. The standard of excellence results for PATs and Diplomas are a subset of the acceptable standard results.
2. Data values have been suppressed where the number of respondents/students is fewer than 6. Suppression is marked with an asterisk (*).
3. Caution should be used when interpreting high school completion rate results over time, as participation in the 2021/22 Diploma Exams was impacted by the COVID-19 pandemic. In the absence of Diploma Exams, achievement level of diploma courses were determined solely by school-awarded marks.
4. Aggregated Grade 9 PAT results are based upon a weighted average of percent meeting standards (Acceptable, Excellence). The weights are the number of students enrolled in each course. Courses included: English Language Arts (Grades 9, 9 KAE), Français (9e année), French Language Arts (9e année), Mathematics (Grades 9, 9 KAE), Science (Grades 9, 9 KAE), Social Studies (Grades 9, 9 KAE).
5. Aggregated Diploma results are a weighted average of percent meeting standards (Acceptable, Excellence) on Diploma Examinations. The weights are the number of students writing the Diploma Exam for each course. Courses included: English Language Arts 30-1, English Language Arts 30-2, French Language Arts 30-1, Français 30-1, Mathematics 30-1, Mathematics 30-2, Chemistry 30, Physics 30, Biology 30, Science 30, Social Studies 30-1, Social Studies 30-2.
6. Participation in the PATs and Diploma Exams was impacted by the COVID-19 pandemic in 2021/22. School year 2021/22 is not included in the rolling 3-year average. Caution should be used when interpreting trends over time.
7. Participation in the PATs was impacted by wildfires in 2022/23 and 2023/24 and cancellation of the January 2026 sitting. Caution should be used when interpreting trends over time for the province and those school authorities affected by these events.
8. Participation in Diploma Exams was impacted by wildfires in 2022/23. Caution should be used when interpreting trends over time for the province and those school authorities affected by these events.
9. Security breaches occurred over the last few days of the 2021/22 PAT administration window. Students most likely impacted by these security breaches have been excluded from the provincial cohort. All students have been included in school and school authority reporting. Caution should be used when interpreting these results.
10. Participation in the 2025/26 Diploma Exams was impacted by the January 2026 exam administration cancellation. School year 2025/26 is not compared with previous years' results and will not be included in the rolling 3-year average. Caution should be used when interpreting trends over time.

Overall Summary

In general, we have much to celebrate, while also recognizing the opportunities for continuous improvement as we close out the 2022–26 Division Strategic Plan and 2022–26 Four-Year Education Plan. These results also affirm the focus of the 2026–30 Division Strategic Plan and the 2026–30 Four-Year Education Plan (Year One), which the Division is supporting through intentional efforts that promote safe and caring school environments and high-quality teaching and learning experiences.

Tables 2 and 3 provide a summary of both the Division's results and those of the province, enabling us to better understand our results within a broader context. This comparison is presented both quantitatively and through the coloured-coded provincial achievement standards (red, orange, yellow, blue or green).

Alberta Education and Childcare and Edmonton Public Schools are dedicated to providing timely and relevant learning support for EAL students and self-identified First Nations, Métis, and Inuit students. The summaries of these results are outlined below in Tables 4 and 5.

English as an Additional Language Students

In 2023–24, as part of the annual review of students coded as EAL learners, schools reviewed academic information to see if students still required support. As a result of this work, significantly fewer students were identified for coding as EAL learners, particularly in junior high and high schools. These changes continue to be reflected in 2025–26 data as seen in the three and four year high school completion rates *(see more details in Appendix C, Tables C10 and C16)*. However, the Division's 5-year high school completion results for EAL students highlight that given time and support these learners catch up with their peers, as it is similar to the Division's overall 5-year rate.

Engagement

Engaging with staff, families, students and community members serves as a meaningful way in which everyone can have a role in supporting student success and well-being and serves as a key element of public assurance. Both the Board of Trustees and Division leadership value engagement and hold themselves accountable by seeking input before taking action. The Division relies on recognized standards for public participation practice, such as the International Association for Public Participation (IAP2) Spectrum for Public Participation. IAP2 provides a framework for increasing levels of public engagement depending on the purpose of participation and degree of impact a decision or initiative may have for participants.

Engagement occurs through multiple avenues. Through this engagement, the Division is providing opportunities for generative participation, public assurance and confidence in its decision-making and policy development. Examples of engagement opportunities at both the Division and school levels include:

Division-Level Engagement

- **Division Feedback Survey (DFS)**: Conducted every year for staff, students and families, this survey monitors progress towards the Strategic Plan and helps to inform the development of the Four-Year Education Plan. The DFS provides both system-wide and school-level results that are used to support evidence-based decisions at the Division, school and central unit levels. Beyond the standard questions, the DFS can also include a short set of capsule questions around a specific topic of interest. There is an example of this from 2023–24, when the Board of Trustees requested the DFS include a unique set of questions focused around perceptions of school safety. The Division used feedback from these questions to inform work around belonging and safety, including the development of a draft framework. This past year, we received over 71,000 responses to the DFS. The 2025–26 DFS was the fourth year of the survey aligned to the 2022–26 Division Strategic Plan, and a comprehensive summary of the Division's quantitative results is linked in *Appendix D*.
- **Extended Student Demographic Survey (ESDS)**: In fall 2022, students in Grades 4 to 12 were invited to participate in this survey to help gain insights into the self-described identities of students served by the Division. There was the opportunity to opt out of the survey, and participating students were able to respond only to questions that they felt comfortable with. Over 55,000 students (73 per cent) participated in the survey. A Preliminary Report sharing the results of the survey was presented to the Board on June 6, 2023. The results from the survey were also analyzed with belonging and safety data and this work was shared in a report, Belonging and Safety Division Data, on June 9, 2026.
- **Inclusive Education Parent and Community Advisory Committee**: Supported by Division staff, the committee is composed of up to 10 family and community members as well as three members from Division Administration; this committee provides ongoing feedback to help inform the delivery of inclusive education in the Division. For the 2025–26 school year, there was a recruitment process for new members, which resulted in the first meeting being held on May 15, 2026.
- **First Nations, Métis, and Inuit External Advisory Council**: The purpose of this council is to support an ongoing dialogue between community and the Division around student success and First Nations, Métis, and Inuit education. The Division is currently working with community to re-establish this group.
- **Equity Advisory Committee**: Composed of parents, members of the broader community, community partners and former Division students, the committee meets three times per year to help support progress towards the Division's commitment to equity, inclusion and belonging for all.
- **Student Senate**: Student senators from across Division high schools represent their fellow high school students to provide student voice to the Board of Trustees and Administration. The Student Senate serves as a youth

engagement model to promote active student participation in youth governance within education. The work of Student Senate is profiled on the Student Senate website.

- **Community Consultations:** The Division and Board of Trustees bring members of school communities together through online and in-person opportunities around a variety of key topics responsive to high-quality teaching and learning environments and the public education system. Through these opportunities staff, students, families and members of the community have the opportunity to provide feedback. Examples of this include seeking feedback around the Division's website redesign, SchoolZone and strategic planning.
- **Staff Advisory Committee to Support Anti-racism**: This committee is composed of 77 staff members. Through feedback from a group of staff, representing multiple roles, work locations, and personal identities and experiences, the committee supports the Division's commitment to equity, inclusion and belonging for all.
- **Principal Committees:** Central leaders host committees around key areas of Division operations such as Budget, Human Resources, Instructional Supports and Infrastructure. Principals from across a diverse range of school communities sit on these committees to provide school perspective to these key areas of work. Committee work can include feedback that supports the implementation of an initiative, the development of tools or resources or to inform system efficiency and improvement. These committees meet between four and eight times a year and membership is reviewed annually through an expression of interest from school leaders.
- **Superintendent's Community Of Practice in Education:** The Superintendent annually establishes a group of leaders from schools and central decision units to come together to discuss key areas in support of the Division's strategic direction. These discussions provide feedback around emerging opportunities, Division processes and targeted initiatives in support of student success and well-being.
- **Superintendent's Small Group Conversations**: The Superintendent invites principals and central leaders to small group discussions around educational topics of their choice and interest. This practice offers an open platform for Division leaders to connect and dialogue around educational topics and issues.
- **School and Central Results Review:** These are yearly evidence-based discussions between Division leaders and Trustees. Schools invite students, families and community members to be part of these conversations. Through results reviews, Trustees are able to gather information, notice trends and bring back their observations to administration. These conversations help to inform future planning at the school and Division levels.
- **Catchment Conversations:** Division schools are organized in Kindergarten to Grade 12 catchment groupings that work together around common goals in support of student success. Catchment conversations provide school and central leaders with the opportunity to reflect on their results and share and learn from each other. The feedback from catchment conversations complements and enhances information gathered to support Division reporting and planning. Trustees often attend these events.
- **Teacher/Staff Collaborative Conversations**: These conversations bring together staff from across the Division around a strategic topic. Feedback from these conversations helps inform next steps in support of students. Some examples of topics addressed through a collaborative conversation include literacy learning, mental health supports for students, numeracy learning, school safety and staff experiences of belonging through an anti-racism lens. For the 2025–26 school year, conversations were held on the following topics:
  - Classroom Complexities
  - Exploring Support for School Leaders

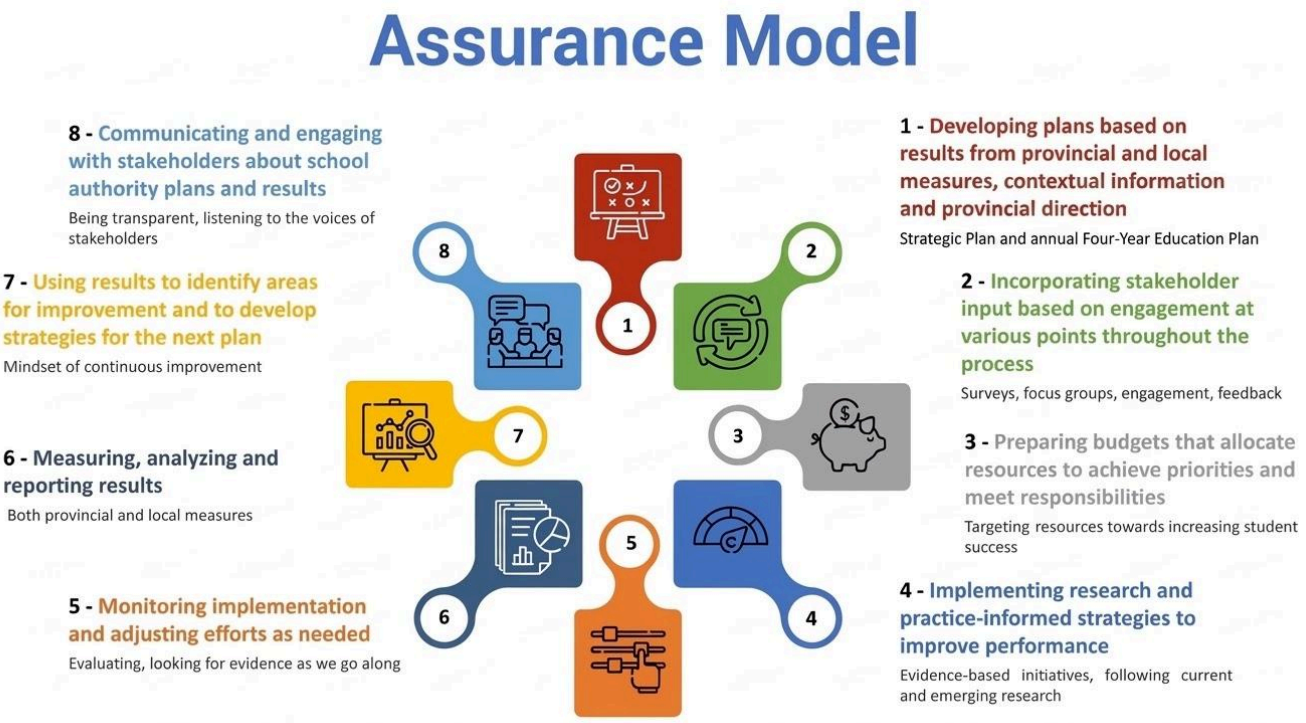

School-Level Engagement

- **School Councils:** One way schools engage with families is through school councils, which provide opportunities for dialogue around school operations, school plans and budget and annual results reports, as well as ongoing conversation regarding student success and well-being. Trustees often attend school council meetings as a means of connection and engagement with families and school leadership.
    - The Board of Trustees continues to support all schools in the ability to form a school council by covering the Alberta School Councils' Association membership fees on behalf of Division schools.
- **Local school activities:** Schools engage with their communities in ways that best meet the needs of their students and families. Examples of what this engagement looks like at the school level include, but are not limited to: meet the principal drop-ins, morning coffee conversations, family nights, student focus groups and school-level surveys. Feedback and voice from these various activities help to support decision-making and inform planning and programming within the school community.
    - Recognizing the importance of the role of parents as partners in their child's learning, parents are invited to participate in both results review and school budget planning.
- **Student Voice:** Many schools across the Division intentionally seek to engage with students through inquiry-led approaches around topics of importance to their school community, including school goals, initiatives and plans. These range from school-formed groups, optional engagement sessions around a topic of focus and school survey opportunities. A number of school-level conversations that centered around student voice took place across the Division in various formats anchored in engagement activities such as world cafes, focus groups, summits or social innovation labs. Working collectively with students, staff and community, school leaders develop responsive frameworks to advance equity, inclusion and belonging in schools.

In summary the Division values the voices of staff, students, families and members of the community. The Division demonstrates its commitment to engagement through the activities identified above, while Figure 2 below highlights the importance of engagement within the provincial assurance model.

Figure 2. *Edmonton Public Schools: Assurance Model*

Priority 1

Build on outstanding learning opportunities for all students.

Priority 1: Build on outstanding learning opportunities for all students.

Outcome: The growth and success of every student is supported throughout their journey from early learning to high school completion and beyond.

Over the past four years, the Division has walked alongside students on their Kindergarten to Grade 12 journey towards the goal of high school completion and a life of dignity, fulfilment, empathy and possibility. Building high-quality learning opportunities that engage and motivate students on their journey to high school completion is a collective endeavour, involving Division students, staff, families and community partners. The three goals of Priority 1 work together to support the growth and success of every student throughout their learning journey to high school completion and beyond. High school completion is a foundational milestone that influences future educational paths, life goals and ultimately quality of life. This work could not be accomplished without the support of families who are key partners in their child's learning and participate in a range of meaningful ways within the school community.

High-quality teaching and learning environments are at the heart of student success. To support these environments, the Division prioritizes the development and growth of staff through a range of opportunities that support professional learning and leadership development and by creating opportunities for collaboration. In addition, the Division provides staff with access to supports, services and resources, such as coaching, mentoring, communities of practice, as well as guides and frameworks. These are responsive and tailored to meet staff where they are at on their own journey of professional growth.

2025–26 DFS results indicate that:

86.6 per cent of principals, teachers and classroom support staff agree with the statement "I know how to access resources to help me meet the diverse learning needs of all students."

2022–23	2023–24	2024–25	2025–26
88.6	85.9	87.2	86.6

The provision of high-quality teaching and learning is also guided by the Division's Administrative Regulation FGCA.AR Supervision and Evaluation of Teachers and the Continuing Contract Recommendation Handbook that stipulates:

- The Division has a formal evaluation process for new teachers, beginning principals and assistant principals who have been identified for evaluation.
- Teachers and school leaders develop annual professional growth plans.
  - These plans reflect alignment with competencies in the *Teaching Quality Standard* (TQS) and *Leadership Quality Standard* (LQS), as well as the Division's Strategic Plan.
  - Many staff use an inquiry-based approach to developing and participating in these plans.
  - Teachers collaborate with colleagues and their principal in the development of their plan.
- Certificated teachers and leaders are guided by the TQS and LQS.
  - To support staff attainment and growth within these standards, the Division offers professional learning that aligns with and enhances capacity across the standards.

The work to provide professional learning opportunities that will positively impact student success resides across the Division, as schools, catchments and central units all play a role in building staff capacity. Particular areas of focus for the Division include:

- Professional learning based on key competencies of the TQS and LQS documents.
- Supporting emerging, aspiring and experienced leaders through the Leadership Development Framework.
- Facilitating a community of practice to support first and second year principals.

- Offering a range of professional learning for all staff in the areas of literacy, numeracy, anti-racism, reconciliation, equity and First Nations, Métis, and Inuit education and new curriculum implementation.

Preparing for the 2025–26 school year the Division was focused on well-being and meeting each student where they were at on their learning journey. This work built on the momentum of ongoing evidence-based initiatives and also reflected the Division's responsiveness to emerging needs. The results achieved throughout Priority 1 reflect this context, despite the disruption at the start of the 2025–26 school year due to provincial labour disruption.

According to the 2025–26 Division Feedback Survey (DFS), student and family confidence in students' learning opportunities increased slightly (between 2.3 and 2.4 per cent) compared to 2024–25 (*see Figures 3 and 75 in the 2025–26 DFS Summary report*). Student results outperformed the prior three years, while families results reflect an increase over the 2024–25 school year and are similar to the 2022–23 school year.

2025–26 DFS results indicate that:

83.6 per cent of students agreed that "school staff have high expectations for me to be successful in my learning."

2022–23	2023–24	2024–25	2025–26
82.8	82.9	81.3	83.6

81.7 per cent of families agreed that "I feel my child's learning needs are supported at their school."

2022-23	2023-24	2024-25	2025-26
81.9	81.1	79.3	81.7

Goal 1: Recognize and support the diverse learning needs of all students.

In 2025–26, teachers worked to address all learning outcomes within a shortened timeline. To help support this, Curriculum and Learning Supports (CLS) provided resources, coaching and professional learning, including: Teaching Strategies for a Shortened Timeline, Illustrative Examples of Weekly plans and 5-by-5 Plans, all designed to enhance curriculum organization and maximize instructional focus.

P1G1 Strategic Action: Provide targeted professional learning and resources that support the implementation of the new curriculum.

CLS developed a range of professional learning (PL) opportunities and resources to support new curriculum implementation, including flexible PL sessions, scopes and sequences and resource collections. These were provided to support implementation of Kindergarten to Grade 3 Social Studies for the 2025–26 school year.

2025–26 DFS results indicate that:
81.4 per cent of staff[5] agreed that "the Division resources for teaching the new curriculum have been helpful."

2022–23	2023–24	2024–25	2025–26
89.0	84.0	84.0	81.4

- CLS offered a variety of flexible PL opportunities supporting new curriculum for Division schools, including brief, targeted professional learning sessions. The convenience of this responsive format was popular with schools; with over 2,450 teachers and administrators participating in sessions targeted at implementation of the new curriculum during the 2025–26 school year.
- Centrally-created Social Studies resources (Social Snapshots) in English and French were provided to support teachers in implementing the Kindergarten to Grade 3 Social Studies curriculum throughout the 2025–26 school year and in getting started with implementing the Grade 4 to 6 Social Studies curriculum for September 2026.
- Through targeted provincial funding, the Division continued to provide leadership to the development of resources to support the draft Grade 7 to 9 curriculum for Mathematics, Social Studies, Career Education and Financial Literacy, and Physical Education and Wellness. CLS conducted field testing of the draft resources with over 150 Division and external school division teachers.
    - Once finalized, these resources were available to support teachers across the province.

[5] Staff who reported using new curriculum resources in a prior DFS question.

P1G1 Strategic Action: Continue to refine the Individual Program Planning[6] process as a means to monitor for student growth and enhance collaborative goal setting with families.

Individual Program Plans (IPP) prioritize areas of growth for individual students who have a special education code or who are identified as benefiting from an IPP. The IPPs are focused around a student's academic and/or social growth and may include strategies that support engagement within the classroom environment. To support IPPs that are responsive to the learning and social needs of each individual student, the Division has a range of IPP templates. Schools engage with families around this process and the IPP serves as a document that informs programming throughout the school year and captures student growth and progress. This collaborative process recognizes and builds upon a student's areas of strength and sets goals to support continuous improvement.

2025–26 DFS results indicate that:
84.3 per cent of families who have a child with an IPP agreed that "my child's IPP goals are appropriate for their development."

2022–23	2023–24	2024–25	2025–26
83.4	81.2	81.2	84.3

- Work has been undertaken to support revisions to the various IPP templates to further enhance the effectiveness of these planning documents. This work included collaboration with school leaders and educators, and reflects the following updates:
  - IPP Templates A (Kindergarten to Grade 12 Mild/Moderate special education coding) and B (Kindergarten to Grade 12 Severe or Profound special education coding): The templates were updated to clarify that either template, A or B, may be used for Kindergarten students. Template B was also updated to offer an additional option to support teachers in creating meaningful goals and strategies that meet the diverse needs of Kindergarten students.
  - IPP Template C (Gifted and Talented special education coding): The template was updated to reflect planning and programming responsive to the learning needs of students identified as Gifted and Talented, including links to Gifted and Talented-specific learning goals and instructional strategies.
  - IPP Template D (Pre-Kindergarten): The template was updated to better support planning for the unique learning needs of children in the Pre-Kindergarten program.
  - This work also included updates to supporting resources, including revised guiding questions and strategies, and IPP exemplars.

P1G1 Strategic Action: Support a range of programming choices for families through ongoing engagement and the monitoring of enrolment data.

- Edmonton Public Schools offers regular, alternative and specialized programming responsive to the learning needs and interests of students. This demonstrates the Division's commitment to family choice to support the success of all students through a range of high-quality teaching and learning environments. To support this work, the Division develops an annual student accommodation plan.
  - Consistent with the Division's commitment to parental choice and inclusive education, a student's first placement option is their attendance area school in the regular classroom. Specialized program classroom placement is determined by monitoring enrolment in existing specialized classes and new requests for programming. The Division offers a range of specialized programs in over 180 schools.

[6]The IPP delineates the specific instructional strategies and resources provided by a school to cater to the unique needs of each student.

        - Decisions regarding the placement of specialized classrooms are made around a variety of factors including parent choice, student enrolment and school space, and are confirmed through Superintendent approval.
    - There are over 30 alternative programs (such as Cogito, Sakinah Circle, Arts Core or German Bilingual) offered by the Division. The Board of Trustees is responsible for establishing programs. Once established, placement of alternative programs is data-driven using our metrics to determine program viability and sustainability (see Board Policy GAA.BP Delivery of Student Programs of Study), while factoring in space to accommodate programming.
        - For a complete list of all current program options please see epsb.ca.
- Responsive to student interest and anticipated future labour market needs, a Business and Innovation alternative program was approved by the Board of Trustees and initiated at McNally High School in September 2024. This program provides students with the opportunity to explore the Business and Information Technology Career Pathway. Students in the program benefit from cross-curricular learning opportunities that blend business and entrepreneurship Career and Technology Studies (CTS) courses with a focus on innovation. Through entrepreneurial thinking, students focus on building competencies that will serve them in life beyond high school.
    - Thirty-two students registered in the Business and Innovation alternative program in its inaugural year and 126 enrolled for the 2026–27 school year, including 17 returning students. Table 6 provides more detailed enrolment information.

Table 6. McNally Business and Innovation Program (BAI) Enrolment

	Grade 10	Grade 11	Grade 12	Total Students
Students in BAI 2024-25	25	6	1	32
Students in BAI 2025-26	22	18	6	46
Students in BAI 2026-27	81	44	18	143
2026-27 Students who took BAI program the previous year	-	12	5	17
2026-27 Students new to the BAI program	81	32	13	126

Additional Actions Taken in Support of Priority 1 Goal 1

Educational Assistant Internship (EAI) Project

Edmonton Public Schools continued to lead this provincial initiative through the 2025–26 school year. The EAI project supports school authorities throughout Alberta in meeting the need to provide professional development and training for Educational Assistants (EA). The goals are to:

- Provide coaching throughout the training.
- Foster networks of support for EAs through Communities of Practice (CoP).
- Combine online modules with in-class experience and feedback.
- Remove geographic and financial barriers to training.
- Increase recruitment and retention of EAs.
- Create a program that can be adjusted to meet the needs of each school division.

- In fall 2025, Edmonton Public Schools and three other divisions offered the internship independently with 100 participants. In spring 2026, the project ran province wide with 22 school divisions and 544 interns participating. Since the start of this project in 2022–23, 1,504 interns have completed the program across the province.

- Participating divisions included urban and rural authorities representing public, separate, Francophone, charter and federal First Nations schools.
- School authorities could offer the internship to prospective EAs or to established EAs working within their systems.
- The participating divisions committed to:
    - Designating a staff member to be an EAI coach.
    - Allocating time for their EA interns to participate in the CoP sessions.
    - Providing the means and time for the interns to access the online modules.
    - Providing school practicum placements.
- The 16-week program included orientation for the interns and coaches. Edmonton Public Schools supported the other divisions by providing an orientation package, coordinating the coaching orientation and facilitating a weekly provincial CoP.
- The program continues to evolve, with school divisions requesting a fall provincial cohort in addition to the current spring program.
- Additional modules and materials have also been suggested, these include:
    - How to support students in grades 7 to 12 with behaviour challenges.
    - Building a deeper understanding about how to support students with specific diagnosis (e.g. ODD, ADHD, FASD, etc).
    - Culturally responsive connections/relationship building.
    - Infographic to support Literacy and Numeracy progressions (i.e. the starting points and expectations in Literacy and Mathematics modules).
- Edmonton Public Schools' 272 interns for the 2025–26 school year were all new recruits with no prior EA experience in the Division.
    - Of this group, 263 interns were hired as Supply EAs.

Autism Support Team

For the 2025–26 school year, the Autism Support Team (AST) expanded its mandate to support an additional 38 classrooms with focused, direct, on-site classroom support and capacity building. Building on its foundational work, the team provided extensive services including interdisciplinary coaching, modeling, and targeted PL designed to strengthen staff confidence in neuro-affirming practices.

- **Service Delivery and Capacity Building**: Throughout the year, the team prioritized a high-frequency service model, with intensive and frequent in-person school visits to provide embedded coaching. Through the support of this team, classrooms extended their ability to implement strategies that:
    - Give students more autonomy or voice in what strategies they will use to experience success.
    - Reflect specialized communication strategies.
    - Create learning environments that help to support regulation, prioritize safety and support academic engagement.
- **Enhancing the team's professional responsiveness:** The composition of the team has evolved to be responsive to needs of school staff, students and families. This has included:
    - The addition of a social worker to allow for greater continuity for the coordination of complex needs while supporting both school leaders and families to navigate and coordinate services and supports.
    - The addition of two academic programming consultants to prioritize supporting teachers' in their work to modify and adapt curriculum and programming that is responsive to the range of their students' learning needs.

- **Professional Learning and Engagement:** The AST's commitment to building staff capacity was evidenced through their facilitation of a highly valued community of practice and supporting division wide PL. Over the course of the year the AST delivered 71 unique PL sessions to over 2,700 participants.
    - **Key Focus Areas:** Through this PL, the team targeted critical areas of interest, including:
        - Nurturing Autonomy: Exploring alternatives to physical prompting.
        - Neuro-affirming Perspectives: Centring Indigenous perspectives and moving "Beyond Deficits".
        - Academic Engagement: Embedding emergent literacy and numeracy strategies for students with complex communication needs.
        - Regulation and Environment: Designing spaces for sensory regulation, safety and success.

The first year with this team has demonstrated a positive impact for staff, students and families.

P1G1: Summary of Results and Analysis

Edmonton Public Schools uses a variety of provincial and local measures to track efforts for continuous improvement. Provincial assurance measures include: quality of education, parental involvement, student engagement in learning, access to supports and services, as well as preparing all students to graduate, and supporting the transition into post-secondary education and the world of work *(see Tables 2 to 5 starting on page 14)*.

Provincial Measures

Alberta Education and Childcare Assurance Measures

Education Quality: Responses to the AECA survey indicated that the *overall* education quality in Edmonton Public Schools is perceived by parents and students as *good*, similar to provincial results. Teacher perceptions declined for both the Division and the province. The assessment of *improvement* of Education Quality at Edmonton Public Schools is *improved* with *overall* achievement considered *high* for (*see Table 7*). The Division remains committed to implementing actions that support continuous improvement.

Table 7. Alberta Education and Childcare Assurance Measures–Education Quality

Measure & Evaluation	Edmonton School Division						Alberta					
	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall
Overall	87.4 (n= 31,591)	86.5 (n= 30,739)	87.1 (n= 30,379)	High	Improved	Good	87.8 (n= 279,339)	87.7 (n= 269,550)	87.8 (n= 264,259)	High	Maintained	Good
Parent	84.3 (n= 2,887)	82.0 (n= 3,152)	83.0 (n= 3,654)	High	Improved	Good	84.2 (n= 37,209)	84.3 (n= 34,466)	84.2 (n= 33,202)	High	Maintained	Good
Student	85.6 (n= 24,252)	84.9 (n= 23,365)	85.0 (n= 22,646)	Intermediate	Improved	Good	85.8 (n= 208,329)	84.8 (n= 201,514)	85.1 (n= 198,393)	Intermediate	Improved Significantly	Good
Teacher	92.3 (n= 4,452)	92.5 (n= 4,222)	93.2 (n= 4,079)	Low	Declined	Issue	93.5 (n= 33,801)	93.9 (n= 33,570)	94.1 (n= 32,664	Intermediate	Declined Significantly	Issue

Parental Involvement: Overall parental involvement has been maintained at *intermediate* by the provincial achievement measure, with parents continuing to feel more involved in their child's education than they have over both 2024–25 and the previous three-year average *(see Table 8)*. DFS results remain encouraging with 87.0 per cent of families reporting they feel they have a positive relationship with staff to support their child's learning. Over the 2022–26 Strategic Plan these results have remained consistent ranging from 86.0 to 87.0 per cent. Additionally, in the 2025–26 DFS, 83.4 per cent of families agreed that the information they receive about their child's learning helps them support their child in their learning, reinforcing the importance of schools and families working together. Teacher perceptions around parent involvement remain lower than the province on the AECAM. In examining these responses more closely, a greater percentage of teachers indicated they "don't know" across multiple questions of the assurance survey related to parent involvement, when compared to the provincial average *(see Appendix C, Table C1)*.

Table 8. Alberta Education and Childcare Assurance Measures—Parental Involvement

Measure & Evaluation	Edmonton School Division						Alberta					
	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall
Overall	77.7 (n= 7,307	77.6 (n= 7,316)	77.6 (n= 7,673)	Intermediate	Maintained	Acceptable	79.9 (n= 70,601)	80.0 (n= 67,669)	79.5 (n= 65,518)	High	Improved	Good
Parent	77.0 (n= 2,879)	74.2 (n= 3,140)	73.5 (n= 3,634)	Very High	Improved Significantly	Excellent	75.7 (n= 37,020)	75.6 (n= 34,316)	74.2 (n= 33,035)	Very High	Improved Significantly	Excellent

Student Engagement and Providing Support: In 2021–22, the province introduced the following two assurance measures:

- Whether students are engaged in their learning at school.
- Whether students have access to the appropriate support and services at school.

Results for the Division have improved for both these measures, signaling the impact and importance of the work being undertaken with students and families to better understand student learning needs and their connection to the school community *(see Table 9)*.

The Division remains committed to building relationships with each student and meeting them where they are at in support of their learning. The work being done by schools to engage with students and hear their voices is a key strategy to support continued improvement across this area. *(See Appendix C, Tables C3 and C4 for detailed provincial stakeholder results)*.

Table 9. Alberta Education and Childcare Assurance Measures—Engaging Students and Providing Support

The percentage of teachers, parents and students who agree that:

Measure & Evaluation	Edmonton School Division						Alberta					
	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall
Students are engaged in their learning at school	84.3 (n= 31,521)	83.4 (n= 30,669)	83.8 (n= 30,318)	Intermediate	Improved	Good	84.2 (n= 278, 809)	83.9 (n= 269,076)	84.4 (n= 257,344)	Intermediate	Improved	Good
Students have access to the appropriate supports and services at school.	77.6 (n= 31,494)	76.6 (n= 30,647)	77.2 (n= 30,288)	Low	Improved	Acceptable	79.5 (n= 278,459	80.1 (n= 268,786)	80.2 (n= 263,504)	Intermediate	Declined Significantly	Issue

Access to Supports and Services (Specialized Learning Supports): The satisfaction of parents of students who qualify for specialized supports increased significantly compared to the previous year *(see Table 10)*.

For this measure, satisfaction of teachers remained the same as the previous year, and continued to be slightly below the provincial average. DFS results for staff are stronger than the provincial measure, but also reflect the opportunity to improve. The Division will continue to explore and implement actions that are responsive and support staff in their confidence to program for students with specialized learning needs.

2025–26 DFS results indicate that:

75.3 per cent of staff[7] agreed that "I have the knowledge and skills to program for/support students in need of specialized supports."

2022–23	2023–24	2024–25	2025–26
78.2	74.3	75.8	75.3

Table 10. Alberta Education and Childcare Assurance Measures—Division Specialized Supports

a. Parent satisfaction the specialized supports their child receives enables them to be successful learners

Measure & Evaluation	Edmonton School Division				Alberta				
	2023	2024	2025	2026		2023	2024	2025	2026
Parents	80 (n= 709)	80 (n= 695)	72 (n= 597)	79 (n= 598)	Parents	81 (n= 6,562)	78 (n= 6,871)	79 (n= 7,658)	78 (n= 8,435)
b. Teacher satisfaction their school can access supports for students with specialized needs in a timely manner

[7] For this question, staff includes principals, assistant principals and teachers.

Goal 2: Focus on literacy and numeracy so students demonstrate growth and achieve learning outcomes.

Literacy and numeracy form the foundation for successful living, learning and participation in society. Evidence suggests that proficiency in literacy and numeracy are primary determinants of educational outcomes, which in turn significantly influence earning potential, career trajectory and overall quality of life.[8] It is important for students to develop proficient literacy and numeracy skills to realize their full potential in school and ultimately in the workplace and life. Supporting students where they are at on their learning journey is fundamental to the work of educational staff and to each student's success. The Division's actions described below highlight our strategic, collective commitment to how students grow and thrive in these key areas.

P1G2 Strategic Action: Examine data and implement programming, interventions, professional learning and resources that have the greatest impact on student growth.

- The Literacy and Numeracy Achievement Project (LNAP) continued in the 2025–26 school year with 33 schools participating in this professional community of practice (CoP). Each school selected a focus area in either literacy or numeracy. Through LNAP, schools participated in professional learning (PL) focused on evidence-based strategies and came together to share and reflect around the implementation of these strategies within their school communities. LNAP concluded in May 2026. The learnings, supports and resources developed and refined over the three-year project were made available Division-wide through Connect. Examples of learning, supports and resources include:
  - Instructional strategies made available on Connect.
  - Mathematics and Literacy PL Roadmaps, a resource designed to support principals' instructional leadership.
  - The Curriculum and Learning Supports (CLS) Service Request Form, a streamlined process for Division schools to request support from consultants in CLS.
- The LNAP concluded as a project at the end of the 2025–26 school year. The resources and professional learning developed to support LNAP schools were refined and made available to all Division schools. Additionally, through the evolution of this work, the model helped to inform literacy coaching as a support for schools. This was introduced in the 2024–25 school year.
  - The literacy coaching support led to a similar model being adopted for math.
  - Access to these new resources and coaching support has been responsive to the varying needs of both LNAP and non-LNAP schools.
- To build upon existing staff capacity across the Division in the areas of literacy and numeracy, CLS provided a total of 552 PL opportunities (in-servicing, consultations and/or coaching) for over 6,000 participants. These PL topics included:
  - Using math resources and manipulatives.
  - Small group reading instruction.
  - Instructional strategies to support writing growth.
  - Formal and informal reading interventions.
  - Instructional strategies to teach mathematical reasoning.
  - Teaching guided math.
  - Early literacy and early numeracy.
  - Supporting combined grade instruction in math and English Language Arts and Literature.

[8] Green & Riddell, 2001; Green & Riddell, 2015; Lane & Conlon, 2016.

- Cross-curricular planning support and resources anchored in literature.
- Developing phonological and phonemic awareness skills.
- Interactive read alouds.
- Assessing reading.

- Staff feedback from a range of PL topics intended to enhance capacity in supporting student growth, demonstrated staff valued these learning experiences, with approximately 90 per cent of respondents indicating the outcomes of these PL opportunities were met.

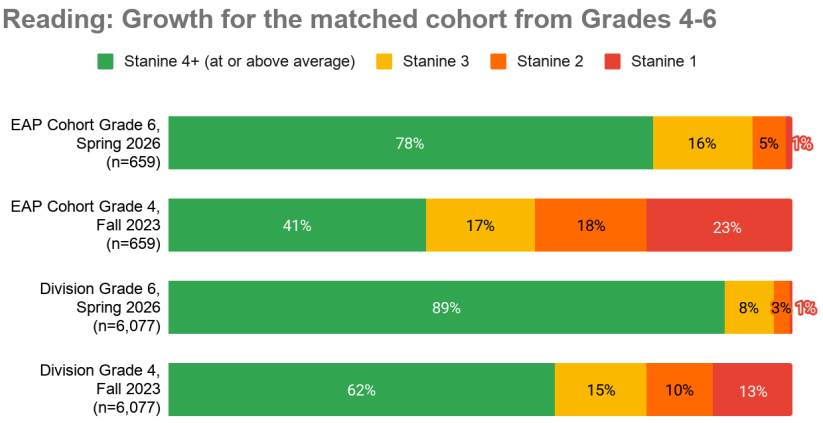

P1G2 Strategic Action: Through collaboration and convergence of practice, schools and catchments implement evidence-based teaching and learning strategies that are responsive to the needs of their students.

Informed by research, the Equity Achievement Project (EAP) is a strategic Division initiative to ensure children in some of Edmonton's most socially vulnerable communities are set up for success in school, and ultimately in life. The overarching goal of this project is the ***intentional support of student learning, leading to improved academic outcomes for our most vulnerable students.***

- Year 5 continued to build on the foundation of research and evidence-based practices established in the first four years. The work of EAP focuses on building capacity in research-based classroom instructional processes in literacy and mathematics that support all students. These common instructional processes and routines are applied across all classrooms to support the development of literacy skills and mathematical reasoning, leading to improved academic outcomes. Lead teachers support the implementation of the following strategies across EAP schools:
  - Monitoring for ongoing growth or progress.
  - Fostering learner identity, self-efficacy and engagement.
  - Planning for instruction through a strengths-based lens.
  - Enhancing implementation of effective Tier 1 instructional processes and routines.
- For Year 5 of EAP, the Division supported this work through the following:
  - Targeted funding for each of the 41 project schools to support the lead teacher role (0.35 FTE) in the area of either literacy or numeracy.
  - Targeted funding for literacy and numeracy consultant expertise and support (5.0 FTE).
  - Leadership and facilitation of both the lead teacher and principal CoP.
  - Ongoing collaboration, communication, monitoring and implementation of the work.
- Figure 3 demonstrates the positive impact EAP has on student achievement based on the Division's CAT4 (Canadian Achievement Tests) reading results. The data in Figure 3 follows a cohort of EAP students in their learning from fall 2023 to spring 2026. Students at stanines 1, 2 and 3[9] in Figure 3 are reading below average. Students at stanine 4 or above are reading at or above average on the CAT4. Figure 3 shows the pattern of improvement as a greater number of students achieved at stanine 4 or above in spring 2026 compared with fall 2023.

Figure 3. *CAT4 EAP Cohort Reading Results*

- Figure 3 shows results for both the Division and the EAP schools cohort. This comparison also demonstrates how the gap between EAP schools and the Division decreased by 10 per cent during this same time period. (*Results for mathematics and computation & estimation can be found in Appendix E*).

[9] Please see the CAT4 section on p. 36 for a brief explanation of stanines.

P1G2: Summary of Results and Analysis

Division staff work together to analyze various data sources to support the literacy and numeracy development of all students. These include local Division-wide assessments such as the CAT4 (which covers reading, math and computation and estimation), Highest Level of Achievement Test (HLAT) writing, as well as provincial assessments such as PATs, diploma exams, the Assurance Survey and the provincial Early Years literacy and numeracy screening assessments. Teachers plan for instruction by reflecting on the results from these assessments, classroom and local school-based assessments and their own professional observations. This helps teachers tailor instruction to meet the specific learning needs of each student, inform programming and identify students in need of additional support or intervention in pursuit of continuous improvement and success for every student. In addition, this information is helpful in communicating with families around their child's literacy and numeracy journey.

Local Measures

Reading, Writing and Mathematics

Teachers use a triangulation of evidence (observations, conversations and products) with students to determine if students are reading at, above or below grade level based on outcomes from the Alberta curriculum. An important part of a student's learning journey is their belief in themselves as learners. The number of students expressing confidence in their academic growth is encouraging; however, Division Feedback Survey (DFS) data also demonstrates the opportunity to support more students to experience this confidence.

2025–26 DFS results indicate that:

80.1 per cent of students agreed that "I think I am getting better at **reading** this year."

2022–23	2023–24	2024–25	2025–26
79.5	79.5	78.9	80.1

78.3 per cent of students agreed that "I think I am getting better at **writing** this year."

2022–23	2023–24	2024–25	2025–26
77.1	77.6	77.6	78.3

73.1 per cent of students agreed that "I think I am getting better at **math** this year."

2022–23	2023–24	2024–25	2025–26
73.2	72.8	72.8	73.1

Overall Reading Levels and HLAT Writing

Table 11 provides a summary of local measures in the areas of reading and writing for students in Grades 1 to 9 at the Division level and disaggregated for both English as an Additional Language (EAL) students and students who self-identify as First Nations, Métis, or Inuit. These results highlight the importance of the work teachers are doing to identify where each student is at in their literacy and numeracy development and to monitor throughout the year for ongoing evidence of growth and progress. Results by grade level are available in *Appendix E*.

Table 11. Local Reading and Writing Results								
	2022–23		2023-24		2024-25*		2025-26	
Students At or Above Grade Level for Reading (Gr. 1–9)	% At or Above	N size	% At or Above	N size	% At or Above	N size	% At or Above	N size
All Division students	67.6	75,612	68.0	78,212	68.8	79,983	**69.2**	79,836
EAL students	59.6	22,340	54.5	22,567	55.9	22,866	**56.7**	23,231
Self-identified First Nations, Métis, and Inuit students	43.7	6,270	47.9	5,901	49.2	5,839	**50.7**	5,831
Students At or Above Grade Level for Writing (HLAT) (Gr. 1–9)	% At or Above	N size	% At or Above	N size	% At or Above	N size	% At or Above	N size
All Division students	66.4	72,001	64.1	75,359	61.4	58,661	**63.0**	76,520
EAL students	60.1	21,512	53.6	21,983	52.2	17,973	**53.7**	22,473
Self-identified First Nations, Métis, and Inuit students	42.1	5,511	41.3	5,481	39.3	4,183	**42.3**	5,311

* HLAT (Writing) assessment was optional in 2024–25 due to the disruption of support staff job action.

CAT4

In 2025–26, students in Grades 4 to 9 completed the CAT4 in reading, mathematics and computation and estimation for the fourth year. One way CAT4 data can be analyzed to capture progress over the school year is to compare fall results to spring results. In fall, the CAT4 assesses students on end of year grade-level expectations for their prior grade, and in the spring students are assessed against end of year expectations for their current grade (prorated to eight months). In the fall, teachers triangulate this data with other information (e.g., classroom assessments and their own professional observations) to inform programming for student learning and identify the need for intervention. In the spring the CAT4 assessments can be used again in support of assessing for student growth.

For the AERR, Division level results have been investigated to show learning trends between fall and spring for students in Grades 4 to 9.[10] At the Division level, these CAT4 results are illustrated through stanines. Stanine scores on the CAT4 are a score based on percentiles using a nine-unit scale from 1 to 9. The stanine scores present data on a nine-point scale, where:

- Stanine scores of 1, 2 and 3 are considered below the Canadian average.
- Stanine scores of 4, 5 and 6 are considered at the Canadian average.
- Stanine scores of 7, 8 and 9 are considered above the Canadian average.

Table 12 illustrates how Division students have progressed in their reading from the fall 2025 to spring 2026 using the CAT4. These results demonstrate growth or improvement for students in Grades 4 to 6. While results for students in Grades 7 to 9 indicate a slight decrease. This has been a consistent occurrence over the past four years and is thought to be at least partially a result of differences in curricular alignment.

[10] The CAT4 data represents the cohort of students who wrote at their enrolled grade level.

Division CAT4 results for mathematics, and computation and estimation, as well as disaggregated results for EAL and self-identified First Nations, Métis, and Inuit students are available in *Appendix E: CAT4*. In general these results represent a similar pattern of achievement for students across Grades 4 to 9 year over year.

Table 12. CAT4 Reading - Percentage of All Students Achieving Across Stanines: Fall and Spring

	Stanine 4+ (Green)	Stanine 3 (Yellow)	Stanine 2 (Orange)	Stanine 1 (Red)
Grade 4, Spring 2026	73	13	9	4
Grade 4, Fall 2025	57	15	12	16
Grade 5, Spring 2026	85	10	4	1
Grade 5, Fall 2025	75	14	8	4
Grade 6, Spring 2026	85	10	3	1
Grade 6, Fall 2025	78	13	7	3
Grade 7, Spring 2026	83	8	5	4
Grade 7, Fall 2025	84	8	5	3
Grade 8, Spring 2026	75	10	6	8
Grade 8, Fall 2025	81	7	7	5
Grade 9, Spring 2026	75	10	8	8
Grade 9, Fall 2025	78	11	5	7

Foundational to this work is ensuring that teachers know how to respond to the learning needs of every student and the importance of ongoing access to PL and resources that support teachers in this work. Over the past four years, teacher voice from the DFS indicates a high level of confidence from teachers in meeting the literacy and numeracy learning needs of the students they teach. Through Division, catchment and school level efforts, teachers will continue to be supported in the area of high-quality literacy and numeracy instruction responsive to the learning needs of each of their students.

2025–26 DFS results indicate that:

92.1 per cent of staff[11] agreed that "I have the knowledge and skills to support students in their literacy learning."

2022–23	2023–24	2024–25	2025–26
92.9	92.3	92.9	92.1

88.3 per cent of staff[7] agreed that "I have the knowledge and skills to support students in their numeracy learning."

2022–23	2023–24	2024–25	2025–26
89.3	88.1	89.6	88.3

[11] K-9 Teachers/APs only; all principals

Provincial Measures

Alberta Education and Childcare Assurance Survey

Reading and Writing Support (*see Table 13)*: From the AECA Survey, it is evident that students' belief in their ability to access reading and writing help at school has seen fluctuations over the years at both the Division and provincial levels. For 2025–26, results for the elementary and junior high cohorts remained the same, while the high school cohort improved again compared to the prior year.

Table 13. Alberta Education and Childcare Assurance Measures—4 Year Historical Division Help with Reading & Writing

Percent of students in Grades 4 to 12 who believe they can access reading and writing help at school when needed.

Edmonton School Division					Alberta				
Grade	2023	2024	2025	2026	Grade	2023	2024	2025	2026
Grade 4-6	82 (n= 9,859)	82 (n= 9,193)	83 (n= 9,143)	83 (n= 10,134)	Grade 4-6	86 (n= 76,795)	84 (n= 79,653)	85 (n= 77,680)	84 (n= 81,878)
Grade 7-9	83 (n= 6,834)	81 (n= 6,394)	83 (n= 7,146)	83 (n= 6,976)	Grade 7-9	83 (n= 62,369)	82 (n= 64,441)	82 (n= 64,976)	84 (n= 66,862)
Grade 10-12	76 (n= 6,066)	75 (n= 5,503)	77 (n= 6,574)	79 (n= 6,744)	Grade 10-12	78 (n= 51,147)	79 (n= 52,565)	80 (n= 54,511)	80 (n= 55,963)

In the 2025–26 DFS, students were asked to respond to "I know how to get help with my learning in school." Though broader in nature than the provincial assurance measure, approximately 86 per cent of students (Grades 4 to 12) indicated a positive response to this question. This data reinforces the importance of relationships between students and school staff.

Provincial Literacy and Numeracy Screeners and Assessments

In the 2025–26 school year, the Division continued to administer the Early Years literacy and numeracy screening assessments introduced by the province in 2021–22 to help address pandemic related learning disruption. These Early Years assessments are now part of provincially required measures to inform assurance reporting and to support programming for children and students in the early years at the classroom level. These assessments are administered up to three times per year and are intended to identify students who may require additional supports in the areas of literacy or numeracy. For the 2025–26 school year, Division teachers used the following Alberta Education and Childcare approved screening assessments for Kindergarten through Grade 3:

- Castles & Coltheart 3 (CC3) Assessment English and French
- Letter Name-Sound (LeNS) Assessments English and French
- Phonological Awareness Screening Test (PAST) English and French
- Rapid Automatized Naming (RAN) English and French
- Numeracy Screening Assessments English and French

In 2025–26, students in Grades 4 and 5 were screened using CAT4 reading, mathematics, and computation and estimation assessments. All students were screened in the fall and again in the spring *(see Table 12 and Appendix E: CAT4).*

Table 14 illustrates the grade requirements and schedule for each of these assessments throughout the year for Kindergarten to Grade 3. Of these assessments, the Division is only required to report initial (September) and May results for literacy and numeracy at each grade level to the province in the AERR. Note that Kindergarten assessments only occur once per year in January.

Table 14. Required Early Years Literacy and Numeracy Screeners and Assessments

	Kindergarten			Grade 1			Grade 2			Grade 3		
	Sep	Jan	May	Sep	Jan	May	Sep	Jan	May	Sep	Jan	May
CC3					✔	✔	✔	✔	✔	✔	✔	✔
LeNS		✔		✔	✔	✔	✔	✔	✔			
PAST		✔		✔								
RAN		✔		✔								
Numeracy		✔		✔	✔	✔	✔	✔	✔	✔	✔	✔

Tables 15 and 16 represent the number of Kindergarten children and Grades 1 to 3 students identified as requiring additional supports using data from the fall and winter screenings. This data can serve as an early indicator for schools to provide responsive programming.

Table 15. Kindergarten to Grade 3 Literacy Assessments	The total number of children and students screened in literacy on the initial administration (grades 1 to 3— Fall; Kindergarten – Winter)	The total number of children and students identified as requiring additional supports in literacy overall on the initial administration (grades 1 to 3— Fall; Kindergarten – Winter)	The total number of students identified as requiring additional supports in literacy overall on the spring administration in grades 1 to 3
Kindergarten (Winter screening)	7,184	1,874	n/a
Grade 1 (Fall screening)	7,911	1,626	1,298
Grade 2 (Fall screening)	8,091	1,596	1,267
Grade 3 (Fall screening)	8,530	1,738	1,362

Table 16. Kindergarten to Grade 3 Numeracy Assessments	The total number of children and students screened in numeracy on the initial administration (grades 1 to 3— Fall; Kindergarten – Winter)	The total number of children and students identified as requiring additional supports in numeracy overall on the initial administration (grades 1 to 3— Fall; Kindergarten – Winter)	The total number of students identified as requiring additional supports in numeracy overall on the spring administration in grades 1 to 3
Kindergarten (Winter screening)	7,184	1,880	n/a
Grade 1 (Fall screening)	7,911	1,801	1,374
Grade 2 (Fall screening)	8,091	2,039	1,277
Grade 3 (Fall screening)	8,530	2,134	1,365

To support ongoing growth and progress, teachers used universal instructional supports, targeted (small group) and specialized (individualized) strategies to support every student in their literacy and numeracy learning. Teachers across the Division supported students identified as at risk in the areas of literacy and numeracy learning, through a range of research-based literacy and numeracy intervention strategies including, but not limited to, the following examples:

Literacy	Numeracy
○ Comprehension: Activate and build content knowledge, self-monitor for understanding, develop inference skills and use text structure knowledge. ○ Vocabulary: Explicitly teach tier two words and word learning strategies. ○ Fluency and Sight Word Acquisition: Employ repeated reading and build automaticity with high frequency words. ○ Phonemic Awareness and Phonics: Explicitly and systematically teach letters, letter combinations and associated sounds and teach isolating, blending, segmenting and manipulating of sounds.	○ Mathematical Representations, which includes ■ Visuals, such as pictorial representations. ■ Concrete or "hands-on" materials. ■ Mathematical or symbolic notations. ○ Mathematical Dialogue, which includes: ■ Sharing ideas and clarifying understanding verbally. ■ Number talks and mental math activities. ■ Vocabulary development to express mathematical ideas. ○ Mathematical Writing, which includes: ■ Graphic organizers and charts. ■ Using pictures, numbers and symbols.

Provincial Achievement Results

PAT Results for all Division students, EAL students and self-Identified First Nations, Métis, and Inuit students: Tables 17, 18 and 19 detail the aggregate PAT results for the percentage of students who achieved the *acceptable standard* or the *standard of excellence* for each of the three cohorts of students. For each cohort, students are compared to the provincial cohort.

Division *overall acceptable* PAT results for Grade 9 students declined compared to the prior year, similar to provincial results. The Division *overall standard of excellence* rate declined as well, but remained above the provincial achievement (*see Table 17)*. Results for individual subjects are available in *Appendix C, Tables C7, C9 and C11*.

Table 17. Overall PAT Acceptable/Excellence Results for All Division Students

Overall cohort results	Edmonton School Division							Alberta						
	2023	2024	2025	2026	Achievement	Improvement	Overall	2023	2024	2025	2026	Achievement	Improvement	Overall
Grade 9 Enrolment	8,297	8,710	9,108	9,222				57,925	60,682	61,071	61,946			
Overall percentage of students in Grade 9 who achieved the acceptable standard on PATs.	62.0	63.2	63.4	61.0	Very Low	Declined Significantly	Concern	62.6	62.5	62.5	60.8	Very Low	Declined Significantly	Concern
Overall percentage of students in Grade 9 who achieved the standard of excellence on PATs.	18.9	19.1	19.4	18.1	Intermediate	Declined	Issue	15.5	15.4	15.6	15.5	Intermediate	Maintained	Acceptable

When looking at PAT results for Grade 9 EAL students (*see Table 18*), it should be noted that as part of the 2023–24 annual review of students coded EAL, schools reviewed academic information to see if students still required support and EAL coding. This work resulted in significantly fewer students continuing to be identified for coding as EAL learners for the 2023–24 school year. This has continued to influence the size of the EAL student cohort for the 2025–26 school year and remains reflected in our results with 17 per cent fewer EAL students than in 2022. Over the same period there was seven per cent growth in EAL enrolment. The Division continues to provide programming and interventions to support EAL students in their learning and to provide opportunities for staff to further enhance their capacity and confidence to meet the learning needs of EAL students.

2025–26 DFS results indicate that:

71.2 per cent of staff[12] agreed that "I have the knowledge and skills to program for/support students who are English Language Learners (ELL)."

2022–23	2023–24	2024–25	2025–26
74.0	70.6	73.2	71.2

Grade 9 Enrolment	1,613	1,303	1,185	1,338				7,162	7,405	7,682	8,397			
Overall percentage of students in Grade 9 who achieved the acceptable standard on PATs.	57.8	49.3	43.0	45.8	Very Low	Declined Significantly	Concern	55.3	52.7	51.2	51.7	Very Low	Declined	Concern
Overall percentage of students in Grade 9 who achieved the standard of excellence on PATs.	15.5	10.5	7.9	10.1	Low	Maintained	Issue	11.0	10.1	10.0	10.3	Low	Maintained	Issue

2025–26 DFS results indicate that:

80.8 per cent of staff[11] agreed that "I have the knowledge and skills to program for/support students who are First Nations, Métis, and Inuit."

2022–23	2023–24	2024–25	2025–26
78.7	79.3	82.4	80.8

Following two years of improvement, PAT results in 2026 for Grade 9 self-identified First Nations, Métis, and Inuit students (*see Table 19*) declined for both the *acceptable and standard of excellence*. This decrease was also present for provincial *acceptable standard*, while the provincial *standard of excellence* was maintained. These results reflect the ongoing urgency and importance of the collaborative work of students, staff, families and community members in support of student achievement and success. Division results demonstrate the importance of an intentional strategy to support self-identified First Nations, Métis, and Inuit students on their learning journey through Grades 4 to 9.

[12] For this question, staff includes principals, assistant principals and teachers.

Table 19. Overall PAT Acceptable/Excellence Results for Self-Identified First Nations, Métis, and Inuit Students

	Edmonton School Division							Alberta						
	2023	2024	2025	2026	Achievement	Improvement	Overall	2023	2024	2025	2026	Achievement	Improvement	Overall
Grade 9 Enrolment	740	768	733	723				4,717	4,868	4,924	4,952			
Overall percentage of students in Grade 9 who achieved the acceptable standard on PATs.	31.3	34.7	36.1	31.0	Very Low	Declined	Concern	39.4	41.4	41.6	38.9	Very Low	Declined Significantly	Concern
Overall percentage of students in Grade 9 who achieved the standard of excellence on PATs.	4.0	5.7	5.6	3.6	Very Low	Declined	Concern	5.3	6.1	6.3	5.4	Very Low	Maintained	Concern

Diploma Exams

Overall Diploma Exam Results for all Division students, EAL students and self-identified First Nations, Métis, and Inuit students: Tables 20, 21 and 22 detail the aggregate diploma results for the percentage of students who achieved the acceptable standard or the standard of excellence for each of the three cohorts of students. For each cohort, these students are compared to the provincial cohort. As noted in the introduction to this report, 2025–26 diploma examinations were not evaluated against provincial standards (achievement, improvement and overall colour designations) as January 2026 diploma examinations were cancelled, thus results are not directly comparable to the provincial standard for prior years.

Results for all Division students at the *acceptable standard* remained similar to prior years and are slightly better than provincial results. S*tandard of excellence* results at the Division increased and are 4.6 per cent higher than the province (*see Table 20*). These results reinforce the importance of actions taken across the Division to support high school students in their planning towards high school completion and preparation for their future aspirations.

Table 20. Overall Diploma Exam Course Acceptable/Excellence Results for All Division Students

Overall cohort results	Edmonton School Division							Alberta						
	2023	2024	2025	2026	Achievement	Improvement	Overall	2023	2024	2025	2026	Achievement	Improvement	Overall
Writers	12,163	12,876	13,630	11,855				67,294	72,444	78,236	69,902			
Overall percentage of students who achieved the acceptable standard on diploma examinations.	80.2	81.5	81.8	81.2	n/a	n/a	n/a	80.3	81.5	82.0	80.2	n/a	n/a	n/a
Overall percentage of students who achieved the standard of excellence on diploma examinations.	24.0	25.5	25.9	27.5	n/a	n/a	n/a	21.2	22.6	23.0	22.9	n/a	n/a	n/a

High school students were also part of the 2023–24 annual review of students coded EAL, where schools reviewed academic information to see if students still required support and EAL coding. This resulted in fewer high school students continuing to be identified for EAL coding beginning in 2023–24 (*see Table 21*). This change in coding practice is one factor to be considered when examining year over year results. Division *acceptable* and *standard of excellence* results for EAL students decreased in 2025–26 compared to 2024–25, this mirrors provincial EAL student results.

Table 21. Overall Diploma Exam Course Acceptable/Excellence Results for English as an Additional Language Students

EAL cohort results	Edmonton School Division							Alberta						
	2023	2024	2025	2026	Achievement	Improvement	Overall	2023	2024	2025	2026	Achievement	Improvement	Overall
Writers	1,911	940	1,100	1,038				6,167	5,610	6,878	6,475			
Overall percentage of students who achieved the acceptable standard on diploma examinations.	68.7	60.8	64.7	60.3	n/a	n/a	n/a	67.1	66.3	67.4	62.1	n/a	n/a	n/a
Overall percentage of students who achieved the standard of excellence on diploma examinations.	17.2	14.4	15.2	13.4	n/a	n/a	n/a	13.8	14.0	14.8	12.8	n/a	n/a	n/a

Diploma results for self-identified First Nations, Métis, and Inuit students (*see Table 22*) achieving an *acceptable standard* are slightly below those of last year, while continuing to exceed provincial results. Division results for *standard of excellence* improved and exceeded those of the province. The Division will continue to provide meaningful learning experiences that meet high school students where they are at on their path to high school completion and their goals for life after high school. Looking over these results year to year demonstrates an encouraging trend of improvement and reinforces the importance of collaborative efforts between students, staff, families and community partners to support academic achievement.

Table 22. Overall Diploma Exam Course Acceptable/Excellence Results Self-Identified First Nations, Métis, and Inuit Student

	Edmonton School Division							Alberta

Overall percentage of students who achieved the standard of excellence on diploma examinations.	11.1	11.0	11.8	14.7	n/a	n/a	n/a	11.3	11.8	11.9	12.2	n/a	n/a	n/a

Goal 3: Promote competencies to empower students to meet the needs of a changing society, workforce and climate.

Preparing all students to graduate and supporting their transition into post-secondary education, the world of work, lifelong learning and community citizenship is a fundamental outcome of public education. The following actions support students in thinking about and preparing for the future.

P1G3 Strategic Action: Enhance innovative, experiential learning opportunities that encourage all students to think about, explore and plan for the future.

- The Division's work in support of career pathways seeks to connect students to authentic, hands-on learning opportunities grounded in curriculum and supporting competency-focused experiences. The Division's Career Pathways model supports career exploration from Awareness (Kindergarten to Grade 4), to Understanding (Grades 5 to 9) to Readiness (Grades 10 to 12). The Career Pathways team engages staff through professional learning (PL) opportunities, curriculum planning and facilitating connections to community partners. Some examples of the work occurring across the Division, includes:
    - MakerWeek, a cross-curricular design challenge for students that emphasized creative problem solving. Four schools and over 550 students participated in 2025–26.
    - Inquiring Minds, immersive off-campus learning experiences for Kindergarten to Grade 12 students, included some of the following themes: School at the Legislature, U School, Fort School, Aviation School, Jube School and Zoo School. 54 classes visited an Inquiring Minds site in 2025–26. Teachers from across the Division applied for their class to attend one of the 14 off campus sites and 108 applications were accepted for the 2025–26 school year.
    - The Career Pathways' Community Marketplace, where over 5,500 students and professionals from more than 76 organizations explored careers together. Through the Marketplace, volunteer professionals visited classrooms on 213 occasions to share information with students and lead the class in authentic, hands-on, career pathways-focused learning activities.
    - The Student Spaceflight Experiments Program (SSEP), an opportunity in partnership with the National Center for Earth and Space Science Education for students in Grades 6 to 9 to research Science, Technology, Engineering and Mathematics (STEM) topics in microgravity. Students compete to send their experiment to the International Space Station (ISS).
        - In the 2025–26 school year, 14 Division schools and 628 student researchers participated in the Mission 21 competition with schools from across North America. In conjunction with this competition, a cross-curricular Mission Patch Art and Design competition was also held. Mission patch designs from Dr. Margaret-Ann Armour and York schools were chosen from approximately 300 entries (Kindergarten to Grade 9) with winning mission patches launching to the ISS in October 2026.

- The Student AI Conference, organized by the Division's Technology Integration and Planning Support (TIPS) team and Career Pathways, connected approximately 300 students in Grades 10 to 12 from across the Division to explore the field of AI. Through a dynamic program featuring a keynote speaker from the Alberta Machine Intelligence Institute (Amii), 18 breakout sessions, 19 exhibition hall booths and hands-on activities, students deepened their understanding of AI literacy, ethics, real-world applications and career pathways. Participant feedback was highly positive, with 95 per cent of post-conference survey results from students and staff reporting high satisfaction.

Student Voice

"I really enjoyed that there were experts and scientists in the field that were here. Additionally, the breadth of different applications made it really engaging. "

- Grade 12 Student Participant, Student AI Conference

Community Voice

"The conference was very well coordinated and enjoyable. It was great to engage with the students and other exhibitors. It was a wonderful experience to how concerned and interested today's youth is in ethics, sustainability, and applications for AI. There were so many great conversations and questions from students."

- Sponsor/Exhibitor

- In alignment with the Premier's education mandate letter to raise awareness and create opportunities for young Albertans in Grades 9 to 12 to explore career pathways in skilled trades and technology professions, Edmonton Public Schools initiated the Skilled Trades and Technology Collegiate.
  - More than 500 students signed up to access specialized trades and technology-related courses offered by the Division. The following activities were undertaken in the 2025–26 school year to support the collegiate:
    - More than 60 information sessions, class visits, evening events, and open houses offered at more than 100 Division schools.
    - Educational events for students aimed at familiarizing them with various trades and careers.
    - Trades information events at the Northern Alberta Institute of Technology (NAIT), and spotlighting offerings through Campus EPSB, dual credit and the Registered Apprenticeship Program.
  - Provincial capital funding was provided to schools in support of the collegiate launch which enabled schools to purchase equipment such as 3D printers, "trying the trades" kits, laser engravers, and culinary and electrical trades-related equipment.

- Through Campus EPSB students immerse themselves in experiential learning and take courses at other school or industry sites to earn high school credits and potentially industry credentials. In 2025–26, Campus EPSB semestered courses were offered at seven Division high schools across the city. Additionally, semestered courses were offered at eight industry training sites and summer Campus EPSB courses were offered at nine industry training sites. Training and experience at industry sites is supported in partnership with The Educational Partnership Foundation (TEPF). Ninety-eight students chose this path of learning through one of these opportunities.

Semester in school courses	Semester industry training sites	Summer industry training sites
• Artificial Intelligence • Automotive Service Technician • Community Care • Cosmetology • Culinary Arts • Electrician Apprenticeship • Exploring Aviation • Musical Theatre • Psychology • Restauranteur • Welding	• Bricklayer • Carpentry • Electrical Trades • Industrial Mechanic (Millwright) • Insulators Heat and Frost • Iron Working • Pipes Trades	• Bricklayer • Boilermaker • Carpentry • Electric Trades • Finishing Trades • Industrial Mechanic (Millwright) • Ironworker • Pipe Trades • Sheet Metal

P1G3 Strategic Action: Engage students from Kindergarten to Grade 12 to self-reflect and set goals that develop their skills, increase their awareness of career pathways and support their readiness to transition to life beyond high school.

- A key step to supporting student readiness for life beyond Grade 12 is mapping out a path to high school completion focused on a students' goals and interests. This work happens across Division schools in a variety of ways, with staff engaging in conversations with students and supporting them in documenting their learning plan. myBlueprint, an online tool accessed by students and staff through SchoolZone, is one example of a resource schools can use to support students in this planning for their futures.
  - myBlueprint is designed to support students' awareness of various career pathways and their readiness to transition to life beyond high school. This tool is available to all students from Kindergarten to Grade 12 and enables them to:
    - Create portfolios
    - Self-reflect
    - Set goals and create high school plans
    - Explore careers, post-secondary education and trades
    - Build resumes or cover letters
  - In the 2025–26 school year, myBlueprint student logins exceeded 193,000 from Kindergarten to Grade 12 across the Division.

- The sixth annual online EPSB Career Day was organized by Division high schools and supported by the central Career Pathways team. This year's theme was *"Let's* Help *Each Other Connect the Dots"*, emphasizing the importance of collective efforts in supporting students' journeys as they explore potential career pathways, build skills and understand the bigger picture.
    - This event provided 100 sessions for students to choose from. Students were able to actively engage with speakers, asking questions about work-life balance, real-world challenges, necessary skill sets, educational requirements and professional hurdles. In total, session streams were viewed more than 14,000 times by students from junior high and high schools across the Division**.**
    - Evaluations from students indicated overall satisfaction, with an average rating of 4.06 out of 5.

Student Voice

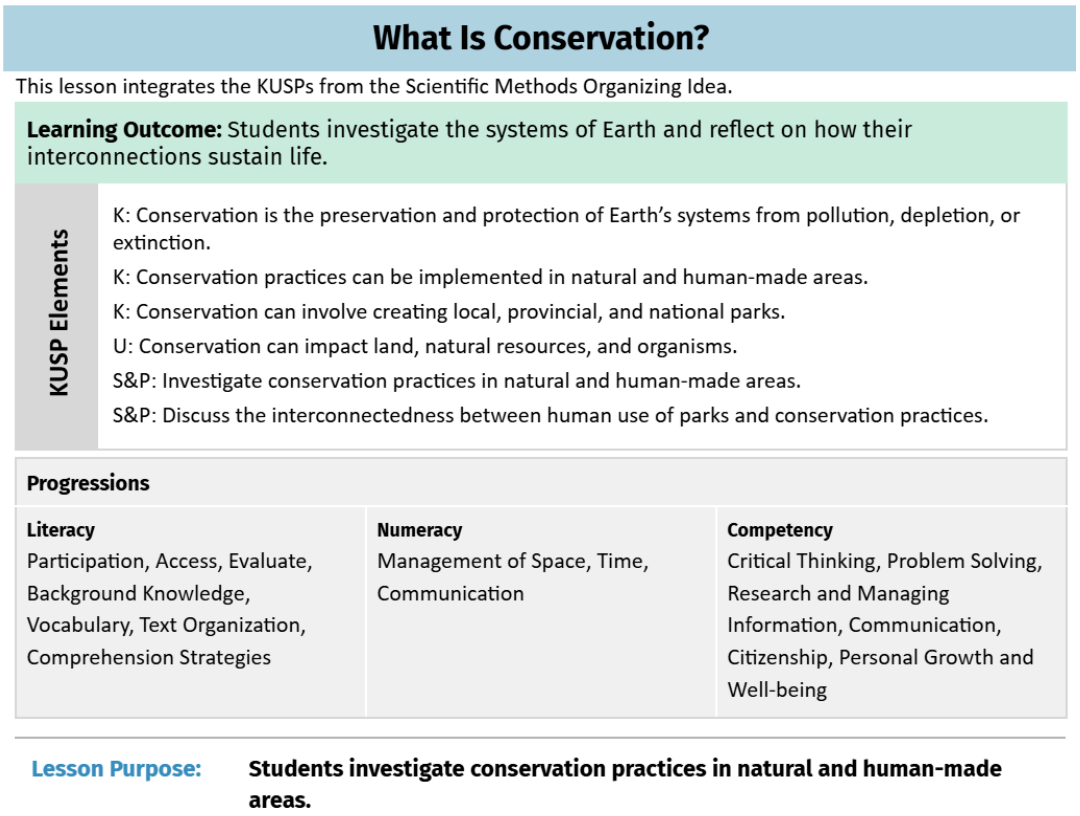

"...[Thank] you guys for the experience, I was able to gain a better understanding of what I want to do, not do, etc. Thank you so much!"

- Student Participant, Career Day

P1G3 Strategic Action: Build students' awareness and understanding of climate change through curriculum, learning resources and experiential learning opportunities.

- Students' awareness and understanding of the environment and climate change is connected in school through the curriculum, student-led initiatives and current events. This includes but is not limited to:
    - The Stepping Into Science Alberta Kindergarten to Grade 6 resources supported teachers across the Division in helping their students explore climate and the environment through curriculum. A sample of how these resources set the stage for this learning is included in Figure 4.

Figure 4. *Grade 4 Stepping into Science Earth Systems*[13]

What Is Conservation?

This lesson integrates the KUSPs from the Scientific Methods Organizing Idea.

Learning Outcome: Students investigate the systems of Earth and reflect on how their interconnections sustain life.

KUSP Elements

K: Conservation is the preservation and protection of Earth's systems from pollution, depletion, or extinction.
K: Conservation practices can be implemented in natural and human-made areas.
K: Conservation can involve creating local, provincial, and national parks.
U: Conservation can impact land, natural resources, and organisms.
S&P: Investigate conservation practices in natural and human-made areas.
S&P: Discuss the interconnectedness between human use of parks and conservation practices.

Progressions

Literacy	Numeracy	Competency
Participation, Access, Evaluate, Background Knowledge, Vocabulary, Text Organization, Comprehension Strategies	Management of Space, Time, Communication	Critical Thinking, Problem Solving, Research and Managing Information, Communication, Citizenship, Personal Growth and Well-being

Lesson Purpose: **Students investigate conservation practices in natural and human-made areas.**

[13] Note: KUSPs refer to Knowledge, Understanding, Skills and Procedures, as set out in provincial curriculum.

- The second year of the sâkipakâwi Gardening Summit, hosted by the Bennett Centre, brought together Grades 4 to 12 students and staff, Indigenous Knowledge Keepers and gardening experts to support sustainable school gardening across Edmonton.
- The Bennett Centre also hosts an annual Climate Summit for high school students and staff to explore how to create a better climate future. Students are able to work with Knowledge Keepers and experts from across diverse fields to engage in climate optimism and explore hopeful, community-rooted responses to climate crises.

- The Division Energy and Environment Strategy (2023–26) continues to bring to life the Division's commitment to environmental and social responsibility. The document serves as an overview of existing sustainability efforts and a framework for upcoming initiatives that recognize the importance of environmental education and sustainable learning environments. It outlines efforts ranging from small projects that support larger sustainability targets, through to Division-wide environmental policy and program development. An update was presented to the Board of Trustees on April 28, 2026. In support of environmental initiatives in schools, the Division conducted a range of activities over the past school year, including the following:
  - Supported schools to participate in the EcoSchools in Alberta program, which is an online platform that engages schools in climate curriculum and sustainable action projects while working towards certification. EcoSchools certification represents environmental excellence for schools in Canada. Currently there are over 65 Division schools registered in the program.
    - The Division continues to participate in the EcoSchools Program Advisory Committee, which is a team of school board representatives who offer insight and expertise to enhance the EcoSchools program and effectively support schools and school boards across the country.
  - Supported Division events and initiatives, including presenting at the Climate Summit organized by the Bennett Centre, to raise awareness of how students can participate in activities that promote environmental stewardship.
  - Engaged with principals from the Infrastructure Principal Advisory Committee for ongoing feedback to help inform initiatives and school resources. Specifically, these sessions focused on shaping key projects such as the refinement of the environmental dashboard, the rollout of the Enviromatters toolkit, the Reuse center pilot and the expansion of the organics program.
  - Maintained the Environmental Dashboard (located on Connect), which provides both Division and school-level summaries of utility consumption, waste diversion and solar generation. The Dashboard includes data that can be used by teachers in the classroom.

Additional Actions Taken in Support of Priority 1 Goal 3

Dual Credit Courses

- During the 2025–26 school year, the Division doubled its dual credit offerings from 15 courses to 30 courses, across nine Division high schools. These courses were offered through Memorandums of Understanding (MOU) with the Northern Alberta Institute of Technology (NAIT), MacEwan University, NorQuest College, Athabasca University and Olds College.
  - In 2025–26, 242 students participated in dual-enrolled, dual credit courses including: Anatomy and Physiology, Sustainable Business, Introduction to Psychology, Introduction to Early Learning Childcare, Accounting, Healthcare Aide, Heavy Equipment Technician, Foundations of Design, Introduction to Veterinary Technician, Training for Performance, and Introduction to Rehabilitation.

Official Languages in Education Programs (OLEP) Hub Project

- The OLEP Hub Project is the provincial model for supporting French language learning that requires active collaboration among school jurisdictions. This HUB project spanned from 2024 to 2026 and focused on developing oral language in French Immersion contexts, a need identified by French Immersion principals.
    - The Institute for Innovation in Second Language Education (IISLE) was one of seven projects in the province approved for this funding and involved collaboration with eight other school divisions in Alberta.
    - The goal of the project was to support students' French oral language development as well as new curriculum implementation through the development of cross-curricular lessons that incorporated the French Immersion Language Arts and Literature (FILAL) Kindergarten to Grade 6 curriculum with the Kindergarten to Grade 6 curriculum for Mathematics, Science, as well as Physical Education and Wellness.
    - In 2025–26, participant feedback on the draft lessons was incorporated. The final versions of the 63 activities have been published on the EPSB Resource Hub, which is publicly accessible for teachers across the province.
- In partnership with Goethe-Institut, the Central Agency for German Schools Abroad, and Alberta Education and Childcare, IISLE coordinated a German Career Fair. Over 150 secondary students in the German bilingual program attended this event that also included students from two other school divisions. This event runs every two years with the purpose of encouraging students to continue studies in German in high school and university, promoting the advantages of learning German, and highlighting career and academic opportunities related to the German language.

P1G3: Summary of Results and Analysis

Engaging and motivating students on their journey to high school completion is a collaborative effort between Division staff, families and community partners that begins in the earliest years. The actions described above exemplify our Division's dynamic collaboration with the community to empower student learning for a changing society, workforce and climate, while creating multiple entry points and opportunities to align with student goals and interests.

The following measures, along with those in Tables 2 to 5 (*see pages. 14-17*), illustrate Division results for both the Division and EAL students. These results demonstrate both the ongoing success of the Division in supporting students to high school completion and preparing them for lifelong learning as well as identifies opportunities for continuous improvement.

Results for self-identified First Nations, Métis, and Inuit students are addressed under Priority 2 Goal 2 of this report, starting on page 65.

Local Measures

High School Course Completion Rates: Division high schools work to explore responsive and creative ways to support student engagement and increased course completion, a critical step towards achieving high school completion. These efforts have supported the average course completion rate to remain stable over the past four years as noted in Table 23. This data also reflects steady enrolment growth in Division high schools over the past several years.

Table 23. High School course completions over 4 years*

	2022–23	2023–24	2024-25	2025-26
Number of enrolments in HS courses	314,151	333,779	352,735	361,179
Number of completed HS courses	266,972	286,950	304,809	309,564
Completion rate	85.0	86.0	86.4	85.7

* Enrolled in course for more than 14 days and completed with a school mark of 50% or greater

Provincial Measures

High School Completion rates are a significant indicator of the Division's success in supporting all students in achieving the goal of high school completion and a life of dignity, fulfilment, empathy and possibility. Tables 24 and 26 highlight three-, four- and five-year high school completion rates for all Division students and for English as an Additional Language (EAL) students in the Division. A caution regarding interpreting high school completion rates over time was provided by Alberta Education and Childcare (*see notes 6, 8 and 10 on page 13)*, as participation in the 2021–22 to the 2023–24 diploma exams was impacted by the pandemic or wildfires. This impact included exams being cancelled at different times and their weighting being reduced from 30 per cent to 10 per cent in 2021–22 and to 20 per cent in 2022–23. Participation in the 2025–26 Diploma Exams was impacted by the January 2026 exam administration cancellation as well. Caution should be used when interpreting trends over time.

This year's dropout rate of 2.2 per cent demonstrates maintenance of positive outcomes, with an overall indicator of *excellent*. Notably, the six year transition rate continues to trend upwards from its already *high* level of achievement. The Rutherford scholarship eligibility rate (66.8 per cent) *declined significantly*, following the trend of the provincial average *(see Table 24)*. The eligibility rates would have also been impacted by various changes to diploma exam requirements outlined above.

Table 24. Alberta Education and Childcare Assurance Measures—High School Completion

All Students—Division compared to Province

Measure & Evaluation	Edmonton School Division						Alberta					
	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall
3-year High School Completion	**78.5**	77.8	77.5	Intermediate	Improved	Good	**82.1**	81.4	80.8	Intermediate	Improved Significantly	Good
4-year High School Completion	**83.0**	81.7	83.2	Intermediate	Maintained	Acceptable	**85.5**	84.7	85.4	Intermediate	Maintained	Acceptable
5-year High School Completion	**84.7**	85.9	86.1	Intermediate	Declined Significantly	Issue	**86.7**	87.1	87.9	Intermediate	Declined Significantly	Issue
Drop Out Rate	**2.2**	2.3	2.2	Very High	Maintained	Excellent	**2.4**	2.4	2.5	Very High	Maintained	Excellent
Rutherford Scholarship Eligibility Rate	**66.8**	68.3	70.4	Intermediate	Declined Significantly	Issue	**68.8**	69.4	70.7	Intermediate	Declined Significantly	Issue
Transition Rate (6 yr)	**67.5**	66.1	65.5	High	Improved Significantly	Good	**61.0**	59.9	59.9	Intermediate	Improved Significantly	Good

Table 25 shows the diploma exam participation rate compared to the three-year high school completion rate each year from 2016 to 2025 for all students. The three-year high school completion rate is consistently higher in the years 2020, 2021 and 2022, when the pandemic affected the writing of diploma exams.

Table 25. All Students - Division: Historical Diploma Exam Participation Rate (4+ Exams) and 3-Year High School Completion Rate

	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025
Diploma Exam Participation Rate (4+Exams)	60.7	60.2	60.2	61.3	0.0	0.0	4.9	56.3	59.5	58.1
3-year High School Completion	75.4	73.8	75.1	76.4	78.7	80.6	78.2	76.5	77.8	78.5
n size	6,308	6,271	6,567	6,589	6,772	6,973	7,107	7,235	7,771	8,348

When examining Division results for EAL students, it is important to note the shift in the cohort size for this group of students (from 1,091 to 369 students - see *Table 27*). This change in cohort size is due to the review of EAL coding that occurred in 2023–24 (*see page 16)*. As can be observed in Table 26, this change affected results in multiple measures: the three-year and four-year completion rates, the drop out rate and the Rutherford Scholarship eligibility rate. The 6 year transition rate for EAL students in the Division (71.2 per cent), which is not yet affected by the coding review, continues to exceed that of the province and has been maintained over time (*see Table 26)*.

Table 26. Alberta Education and Childcare Assurance Measures—High School Completion

Citizenship: The Division's achievement on the provincial measure of students modelling characteristics of active citizenship is *high* (*see Table 28)*; with responses from parents and students indicating significant improvement, while teacher results were *maintained*. A more in-depth review of this measure, which is made up of five sub questions on the provincial assurance survey, found the following:

- The sub questions regarding students following rules and respecting each other, which have consistently been the areas with the greatest opportunity for improvement in student, parent and teacher perceptions, improved across all respondent groups in 2025–26.

Table 28. Alberta Education and Childcare Assurance Measures—Citizenship												
Teachers, parents and students who are satisfied that students model the characteristics of active citizenship												
Measure & Evaluation	Edmonton School Division						Alberta

Lifelong Learning and Work Readiness: Agreement that students are taught attitudes and behaviours that will make them successful at work is *high* and *improved* compared to the prior three-year average *(see Table 29)*. Teachers and parents remain satisfied that students demonstrate the knowledge, skills and attitudes necessary for lifelong learning. Detailed results for the provincial assurance survey can be found in *Appendix C, Tables C5 and C6*.

Table 29. Alberta Education and Childcare Assurance Measures—Success after High School and Lifelong Learning												
	Edmonton School Division						Alberta

Career Planning: Grades 7 and 10 students' perceptions that they get the help they need planning for a career remained similar to prior year results in 2025–26, indicating continued opportunities to build relationships with students and engage them in career and post-secondary planning (*see Table 30*). Results for students in Grades 7 to 9 may be reflective of this age group's readiness and awareness of goals beyond high school.

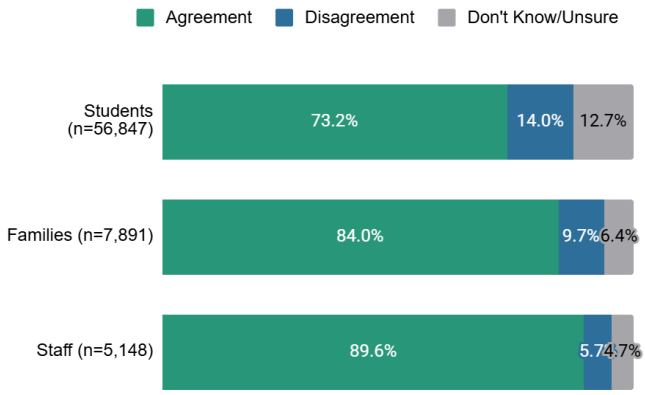

Table 30. Alberta Education Childcare Assurance Measures—4 Year Historical Division and Province—Career Planning

Students reporting that they get the help they need planning for a career.

	Edmonton School Division				Alberta			
	2023	2024	2025	2026	2023	2024	2025	2026
Grades 7-9	56 (n= 6,680)	52 (n= 6,242)	58 (n= 7,022)	57 (n= 6,788)	53 (n= 58,836)	52 (n= 60,928)	54 (n= 60,962)	56 (n= 62,492)
Grades 10-12	78 (n= 6,054)	75 (n= 5,508)	78 (n= 6,627)	79 (n= 6,766)	77 (n= 51,168)	76 (n= 52,587)	78 (n= 54,837)	79 (n= 56,077)

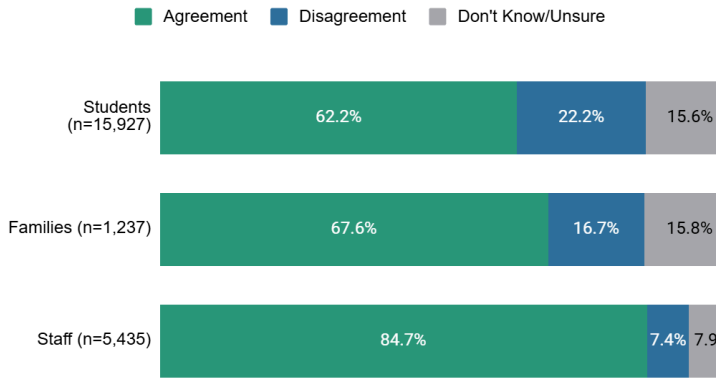

In the 2025–26 Division Feedback Survey (DFS), students in Grades 10 to 12, staff and families were asked two questions focused on how the Division is doing to help students be prepared for their futures. These results, as presented in Figures 5 and 6 below, reflect a high level of staff confidence in the role school plays in preparing youth for their futures. Trend data for the past four years can be found in the 2025–26 DFS report, Figures 12-13 (students), Figures 52-53 (staff), and Figures 81-82 (families). An examination of this data demonstrates that both students and families indicated a higher level of agreement with the two questions compared to the previous year, while staff agreement remains very similar to last year.

Figure 5. *What students are learning in school will prepare them for the future*

Students: What I learn in school will help me in my future
Families: What my child learns in school will help prepare them for their future
Staff: I feel confident connecting curricular outcomes to the development of competencies students will need for their futures

Figure 6. *School is supporting students to prepare for life after high school*

Students: I feel supported to prepare for life after I finish high school (Grades 10 to 12)
Families: My child's school supports them to transition to life after high school (Grades 10 to 12)
Staff: I feel confident that the work I am doing is preparing students to transition to life after high school

The Division's commitment to high quality teaching and learning for all students will continue under the direction set out in the 2026–30 Division Strategic Plan and intentional actions identified through the Division's 2026–30 Four-Year Education Plan. Together these documents reflect the Division's commitment to the Provincial Strategic Priorities for Education.

Priority 2

Advance action towards anti-racism and reconciliation.

Priority 2: Advance action towards anti-racism and reconciliation.

Outcome: Authentic and meaningful progress advancing towards anti-racism and reconciliation.

As we reflect on Priority 2 of our 2022–26 Division Strategic Plan, our results demonstrate progress in our commitment to anti-racism, reconciliation and equity, as well as supporting next steps moving this work forward. This commitment continues to unfold under the directions and actions set out in board policy, the Division's Anti-racism, Reconciliation and Equity Action Plan and priorities reflected in our 2026–30 Division Strategic Plan and 2026–30 Four-Year Education Plan.

The Division believes that listening to, and learning from, students, staff, families and community is critical to understanding what is important. These voices helped to inform the development of a multi-year action plan centred on three key areas:

- Support for schools and enhancing school capacity
- Human Resource practices
- Extended student demographic data collection

Actions outlined in the Division's Anti-racism, Reconciliation and Equity Action Plan have been identified as steps towards authentic and long-term systemic change. Division Feedback Survey (DFS) results are one source of data that provides the Division with insights, trends and tendencies that help inform our progress. An example of this is the DFS question focused on awareness of actions that support truth and reconciliation.

Since the beginning of the 2022–26 Division Strategic Plan, perceptions of awareness of actions being taken to support truth and reconciliation have increased for students (+5.8) and families (+4.6). Over the same time span, staff awareness, which remains high, has decreased slightly from 93.6 to 91.0 per cent.

DFS results serve as one example of a local measure the Division has used to evaluate our work towards the 2022–26 Division Strategic Plan as well as guide the establishment of priorities for the 2026–30 Division Strategic Plan.

2025–26 DFS results indicate that:

85.4 per cent of students agreed that "my school takes actions that support truth and reconciliation."	**2022–23**	79.6
	2023–24	81.5
	2024–25	81.6
	2025–26	85.4
91.0 per cent of staff agreed "the Division is taking actions that support truth and reconciliation."	**2022–23**	93.6
	2023–24	93.2
	2024–25	90.7
	2025–26	91.0
74.0 per cent of families agreed "my child's school keeps me informed of steps they are taking to support truth and reconciliation."	**2022–23**	69.3
	2023–24	71.2
	2024–25	71.6
	2025–26	74.0

Goal 1: Work with students, staff, families and communities to update and advance the Division's Anti-racism and Equity Action Plan each year, so it serves as the catalyst for meaningful, long-term systemic change.

P2G1 Strategic Action: Support the Division's intentional efforts towards anti-racism through an annual cycle of goal setting, monitoring and reporting on progress.

In 2025–26, work in support of three key areas of the action plan continued, building on progress made in previous years. As we consider the updates from years 1 (March 2023), 2 (March 2024) and 3 (December 2025), we recognize the progress made throughout the term of the Strategic Plan, while also looking forward to how these actions serve as guiding momentum to Division's work in support of anti-racism, reconciliation and equity in the 2026–30 Division Strategic Plan.

Action Plan Highlights

- To support a deeper understanding of how belonging and safety are experienced by students, the extended student demographic data was analyzed with Division data from the Youth Resilience Survey, as the concepts of belonging and safety are foundational to school connection, academic success and well-being. This report, *Student Demographic Data Report - A closer look at belonging and safety across student identity groups*, was shared at the public Board meeting on June 9, 2026. The results from this analysis provide a clear foundation for action and confirm the importance of the Division's responsibility to strengthen students' sense of belonging and safety.
- To support authentic engagement and accessible communication, work continued on the creation of two Division resources: a guide to courageous conversations and a document supporting guiding principles on inclusive language.
- In the spirit of continuous improvement, we seek feedback from students, families, staff and members of the broader community. These efforts are supported through advisory committees (principal, staff and community).

Carrying forward, highlights from the 2025–26 school year include:

Working towards Reconciliation

- The Division, led by Curriculum Learning Supports (CLS), hosted an event on September 29, 2025, to commemorate the National Day for Truth and Reconciliation and Orange Shirt Day. Trustees, senior leaders, staff and students were invited to attend the in-person event. The event was also live-streamed so schools across the Division could participate.
    - Trustees and senior leaders also attended a luncheon alongside Residential School Survivors and community members.
- A Gwich'in artist from Edmonton was commissioned to create an original artwork for self-identified First Nations, Métis, and Inuit 2026 graduates. The painting celebrated the rich and diverse cultures of First Nations, Métis, and Inuit (to see the print and for more information about the artist see page 70). Division schools also received a print.

- To support schools in acknowledging and recognizing National Indigenous History Month and the National Day for Truth and Reconciliation, centrally curated and developed materials and learning activities were made available to schools. Examples of these materials include Truth and Reconciliation book clubs, curriculum-based lessons with Indigenous perspectives and a video with an Inuk Knowledge Keeper.

Support for schools and enhancing school capacity:

- The Division continued to offer a range of learning opportunities for staff focused on key topics designed to support and enhance staff capacity, awareness and knowledge in the areas of anti-racism, reconciliation and equity. Details of this work include the following:
  - Diversity Education, Sexual Orientation, Gender Identity, and Expression (SOGIE) and First Nations, Métis and Inuit consultants in CLS and Strategic Division Supports (SDS) offered more than 70 PL sessions around a range of topics, reaching over 1,660 staff members. This reflects an increase in both the number of session topics offered and the number of staff participating compared to last year (2024–25 there were 55 sessions with 1,280 staff participating). Some examples of these sessions include:
    - 7 Grandfather Teachings
    - Anti-racism: Culturally Responsive Teaching
    - Bias in Leadership: Types and Techniques
    - Fostering Effective Conversations about SOGIE
    - Supporting Land-based Learning: Cree Lunar Calendar Teachings, Traditional Plants and Medicines, Smudge Teachings

Staff Feedback		
Bias in Leadership: Types and Techniques	**Fostering Effective Conversations about SOGIE**	**Supporting Land-Based Learning**
"This PD allowed reflection and provided insight into our unconscious biases and how they impact our decision-making." **What key learning/ideas will you take away?** *"Recognizing that unconscious bias is a universal, automatic brain function. People must cultivate self-awareness and disrupt snap judgments."*	*"The notions of reciprocal inclusion and bridging communities stood out for me. I also appreciated the connection between the brain and the implications around these issues."* **What key learning/ideas will you take away?** *"I love the idea that inclusion can be seen from a non-political perspective. All students need to be and feel included."*	*"These few hours of professional learning were a gift to our team. The beading sparked a sense of community, connection, and well-being, inspiring staff to continue learning and creating together beyond the session."* **What key learning/ideas will you take away?** *"Recognizing land-based learning as an opportunity to deepen relationships with the land, cultural teachers, and one another."*

- An Indigenous leadership event was held in the spring and was an opportunity for Division teachers who self-identify as First Nations, Métis, or Inuit to learn from community leaders and explore various leadership opportunities in the Division.
  - 41 participants from 28 schools participated in the event.
- Central teams also supported other staff capacity building structures within the Division, such as catchment leadership groups and Human Resources leadership cohorts, delivering multiple PL sessions specific to this work. In addition, work with these school catchment groups has offered the opportunity to further build capacity to collaborate and co-create PL to meet school community needs for meaningful professional learning.
- Diversity, SOGIE and First Nations, Métis, and Inuit consultants facilitated over 9,000 interactions with students, staff, families and community. This included, but was not limited to:
  - Close to 100 anti-racism consultations supporting topics such as creating a multifaith space, supporting schools when racially harmful language is used and introducing the new anti-racism leadership competency.
  - Over 300 consultations providing guidance to support the establishment or ongoing operation of student organizations or activities, all-gender washrooms, navigating new legislation and safe contact training.
  - First Nations, Métis, and Inuit consultants from CLS and Strategic Division Supports (SDS) responded to over 250 requests, building capacity with students and staff by providing consultations and Indigenous learning opportunities like the Blanket Exercise, Land Acknowledgement teachings, River Walks, Traditional Plants and Medicines, Land-based learning, 7 Grandfather teachings, and Smudge teachings, as well as building connections with Elders and Knowledge Keepers and support for planning Indigenous events and celebrations.

2025–26 DFS results indicate that:

92.1 per cent of students agreed that "in school I have the opportunity to learn about Indigenous perspectives."

2022–23	2023–24	2024–25	2025–26
91.6	91.1	91.1	92.1

93.3 per cent of students agreed that "in school I have the opportunity to learn about treaties and agreements with First Nations."

2022–23	2023–24	2024–25	2025–26
93.1	92.3	92.5	93.3

91.8 per cent of students agreed that "in school I have the opportunity to learn about residential schools and their legacy."

2022–23	2023–24	2024–25	2025–26
92.3	91.6	90.7	91.8

- The Anti-racism Critical Support (ARCS) team, made up of staff from Diversity Education, worked alongside other central units to support emergent school-based issues related to anti-racism and equity. The support of this team remains a valued resource for the Division, though data around access to the team (*see Table 31*) indicates increasing confidence of school staff when responding to race-related situations.

Table 31. Number of requests for support received by the ARCS team

	2022–23	2023–24	2024–25	2025-26
Support requests from schools	26	19	12	11

- Central staff updated Heritage and History Month resources, which provide educators with foundational background, historical timelines and resources to learn more about and celebrate diverse cultural communities. Each document outlines the demographic history and regional origins of the designated group, highlights notable

Canadian figures across various industries, and offers classroom-ready content including age-appropriate book recommendations, video links, interactive games and weekly in-school announcement scripts. The guides serve to build cultural literacy among division staff while giving students relatable role models and engaging opportunities to explore different perspectives. The following guides are available to staff through a central resources hub:

- Asian Heritage Month
- Black History Month
- Hindu Heritage Month
- Islamic History Month
- Jewish Heritage Month
- Latin American Heritage Month
- Sikh Heritage Month

- Across schools, students, staff, families and community will gather to honour cultural diversity through a variety of activities, including food fairs, theatrical, artistic and musical showcases, and dance performances. These collaborative initiatives are routinely showcased on school and Division social media channels that help share awareness of these celebrations with families and members of the community.
- The Division's Multifaith Calendar, a tool highlighting days of significance, was updated to support planning for the 2025–26 school year.

Human Resource practices:

- The new *Equitable and Inclusive Hiring Practices* guide was launched in April 2026. The guide was created to address opportunities and support consistency in hiring practices identified through an anti-racism, reconciliation and equity lens and through engagement with advisory committees.
  - The guide is a collection of information and resources to support hiring managers and panel members in conducting an effective hiring process that is grounded in best practices and aligned to legislative requirements. Hiring resources for teacher-certificated positions reflect alignment to the *Teaching Quality Standard* (TQS) and *Leadership Quality Standard* (LQS), as applicable.
  - As part of implementation, an orientation session supporting the guide and its accompanying resources was presented to Division leaders in April 2026.

Student Demographic Data:

- Extended Student Demographic Survey (ESDS): To gain a better understanding of student identity, the Division implemented the ESDS in the fall of 2022. Students in Grades 4 to 12 were invited to answer a short set of questions related to identity. To support a deeper understanding of how students' identities may influence how they experience belonging and safety in school, the extended student demographic data was analyzed with Division data from the Youth Resilience Survey. This report, *Student Demographic Data Report - A closer look at belonging and safety across student identity groups*, was shared at the public Board meeting on June 9, 2026. The results from this analysis confirm the importance of Priority 2 in the 2022–26 and 2026–30 Division Strategic Plans and the Division's ongoing responsibility to strengthen students' sense of belonging and safety. The results of the June 2026 report were provided to school leaders and will serve as the catalyst for examining belonging and safety within their school community.

Anti-Racism, Reconciliation and Equity Action Plan

- Anti-racism, Reconciliation and Equity action plan final report: From 2021 to 2026, the Division advanced work to address systemic barriers and strengthen anti-racism, Truth and Reconciliation, equity and inclusion across schools and workplaces. These efforts were framed within the construct and direction of the action plan in direct support of Priority 2 of the Strategic Plan. Key efforts outlined in the plan included providing resources and professional learning to support schools, examining human resource practices and using student demographic

data to better understand the identity of students served by the Division and support their success. The momentum of this work will continue forward through the 2026–30 Division Strategic Plan, with a focus on addressing barriers to student success and strengthening belonging, safety and well-being for all students.

P2G1 Strategic Action: Engage with staff, students, families and members of the community to help support and inform the Division's work and commitment towards anti-racism.

To support authentic engagement, the Division has intentionally created opportunities to listen to and learn from students, staff, families and the community. The voices and feedback from these opportunities serve as local measures and indicators to reaffirm and guide the Division's commitment to advance the work of anti-racism, reconciliation and equity.

- Diversity Day is an annual student-centred conference hosted by Edmonton Public Schools in partnership with the Phoenix Multi-Faith Society. Created through a shared commitment to diversity, belonging and acceptance, the leadership conference provides students with opportunities to build understanding of others, reduce prejudice and discrimination and strengthen their school communities through dialogue and student voice.
  - In 2025–26, Diversity Day was held on May 15 at the Centre for Education and 150 students from 12 high schools participated.
  - The opening ceremonies included a Land Welcome and teaching by Councillor Aaron Paquette, greetings from the Honourable Salma Lakhani, Lieutenant Governor of Alberta and a Hoop Dance from Indigenous artist Dallas Arcand.
  - Throughout the day, students selected from a range of sessions, including:
    - Ahmed 'Knowmadic' Ali – Artist, community builder and educator
    - Beth Deer & Churro – Digital creator and advocate
    - Kenny M'Pindou – Canadian National Bobsleigh team member and motivational speaker
    - Khaled Safi – Artist specializing in sand art design and immersive cultural experiences
    - Marty Chan – Award-winning author, playwright and writer
    - Masani St. Rose and Friends – West African and Caribbean dance artist, joined by Guinean Master Drummers
    - Medgine Mathurin – Multilingual spoken word artist and advocate, currently serving as City of Edmonton's 11th Poet Laureate
    - Rena Rachar – Emotional intelligence coach, trainer and speaker

Diversity Day: One Vision, Many Voices, Students Unmuted

"I attended Ahmed Knowmadic Ali's session and the drumming session. Both were exceptional. I enjoyed how Mr Ali had the students engaged and thinking throughout, and his messages were inspirational. The drumming woke my soul, and I felt invigorated and connected to everyone - especially myself!"

- Student Participant

"From diversity day, I learned that fostering community, diversity, and leadership is heavily important, and in my school I want to foster these factors of student life even further."

- Student Participant

  - The day concluded with Saadiq Sumar, Board Chair, facilitating a student panel focused on belonging and connection to school and closing remarks from Superintendent Thompson.

- The Equity Advisory Committee is composed of members of the community and parents representing a diverse range of backgrounds and lived experiences. The committee met three times over the course of the 2025–26 school year. Their work focused on:
  - Reviewing and analyzing results from the student demographic survey to better understand student identities, identify systemic barriers, and examine how feelings of belonging and safety vary across student demographic groups.
  - Advising on data communication and implementation: the committee offered guidance on how to share sensitive survey findings with staff, families and the broader community in ways that protect student identities, maintain transparency and build trust without unintentionally misrepresenting or negatively impacting student groups.
  - Supporting the development of the 2026–30 Division Strategic Plan by providing feedback on the Division's proposed vision, mission and strategic priorities with a focus on advancing anti-racism, reconciliation, equity, and inclusion across Division operations.

- The Division's Staff Advisory Committee is composed of members from across all staffing groups. Its purpose is to enhance progress towards the Division's plan in support of anti-racism, reconciliation and equity. This committee was paused by the labour disruption that occurred in October 2026 and ongoing challenges filling supply jobs. As a result of this, the committee did not meet in 2025–26. Steps were taken to resume meetings for the 2026–27 school year, with the first meeting being held in September 2026.

- The Division's Anti-Racism, Reconciliation and Equity Principal Committee is made up of school leaders representing a range of school communities and contexts. For the 2025–26 school year, the committee's core mandate was to support the Division's commitment to providing a welcoming, caring, respectful and safe learning environment that embraces diversity and promotes a sense of belonging for all students and staff. The committee's work helped to inform the development of resources and processes that promote equity and inclusion. Members met three times over the course of the year and focused their work around:
  - Examining the results of the extended student demographic data analysis, looking more closely at the concepts of belonging and safety.
    - This work included discussions around how best to share this data and considerations for school leaders when working with their school communities.
  - Exploring implications and benefits related to the potential collection of staff demographic data.
    - This work was centered around findings from the committee tasked to explore this work and contextualized into today's education and societal contexts.
    - Feedback from principals aligned with other information surfaced by the working committee that includes:
      - The collection of this data may not surface significantly new actionable information for the Division.
      - The reluctance from staff to share this information.
  - Providing feedback to support the development of the 2026–30 Division Strategic Plan, with a focus around the concepts of Reconciliation, equity and inclusion.

- The Student Senate is a group of elected or appointed high school students from across Division schools who serve as a youth engagement model to promote active student participation in youth governance within education. The Senate met monthly and their work focused on providing student perspectives and enacting student-led initiatives and projects.

Student Senate Highlights

In 2026, the student senate accomplished the following:

- **An information kit brochure:** This kit provides helpful resources for life after high school. Physical copies of this brochure were shared across Division high schools, and a digital copy is publicly available on the Student Senate website.
- **Developed four podcasts:** These podcasts focus on the theme of student life, within and outside of school. The podcast episodes are publicly available on the Division's YouTube channel and the Student Senate website

P2G1: Summary of Results and Analysis

Results from the 2025–26 Division Feedback Survey (DFS) contribute to the local measures the Division uses to better understand the impact of the work the Division is undertaking in support of Priority 2. According to the DFS, there are notable improvements over the last three years, as well as valuable insights for future opportunities. The results confirm the importance of the Division's ongoing work and commitment towards anti-racism and equity (*see Priority 2 results in the 2025–26 DFS Summary Report).*

- In 2025–26, students and staff both indicated greater feelings of safety regarding seeking help if something racist or discriminatory occurred. This growth reflects the intentional work undertaken across the Division supporting Edmonton Public Schools' commitment towards anti-racism and more recent efforts focused on belonging and safety. At the same time, these results demonstrate the importance of ongoing improvement.

2025–26 DFS results indicate that:

74.6 per cent of students agreed that "I would feel safe going to an adult at my school for help if I felt something racist or discriminatory happened."				**78.5 per cent of staff** agreed that "If I were to experience racism or discrimination at my workplace, I would feel safe getting help from the Division."			
2022–23	**2023–24**	**2024–25**	**2025–26**	**2022–23**	**2023–24**	**2024–25**	**2025–26**
71.4	71.4	71.3	74.6	76.2	75.2	77.0	78.5

- Compared to the first year of the Strategic Plan, students and families are now more likely to agree that many diverse cultures are represented in the books and materials and in the events, activities and environment of their school. These results demonstrate the positive impact of work at schools to support environments where all students see themselves represented.

2025–26 DFS results indicate that:

80.3 per cent of students agreed that "many diverse cultures[14] are represented in the books and materials at my school."

2022–23	2023–24	2024–25	2025–26
76.8	78.5	77.8	80.3

87.7 per cent of families agreed that "many diverse cultures[1] are represented in the events, activities and environment of my child's school."

2022–23	2023–24	2024–25	2025–26
84.5	86.0	87.6	87.7

- Staff awareness of what the Division is doing to support anti-racism and belonging remains high but has decreased over the past four years, suggesting opportunities for ongoing central and school communication.

2025–26 DFS results indicate that:

91.8 per cent of staff agreed that "I am aware of the work Edmonton Public Schools is doing to support anti-racism and belonging in schools."

2022–23	2023–24	2024–25	2025–26
95.7	95.3	92.3	91.8

[14] Further expanded on in the DFS as "(i.e., languages, traditions, world views, histories, current realities.)"

Goal 2: Support and enhance the educational experiences and achievements of First Nations, Métis, and Inuit students in relationship with First Nations, Métis, and Inuit families and communities.

The Division continues to work closely with First Nations, Métis, and Inuit students, their families, caregivers, Elders, Knowledge Keepers and members of the broader community in support of student success. The Division strives to develop a holistic understanding of First Nations, Métis, and Inuit cultures, worldviews, histories and current realities. Through this holistic approach, the Division builds relationships that honour individual student stories and cultures to support the weaving of culture and curriculum to enhance a sense of belonging for all students.

The Division has framed its work in support of First Nations, Métis and Inuit student success around the six areas of policies and practices identified by the OECD report *Promising Practices in Supporting Success for Indigenous Students* (2017). The OECD research highlights the importance of relationships, working with families, engaging with community, early learning, high-quality teaching and learning and school leadership, as well as the value of monitoring for evidence of growth and progress. The Division's alignment with this research is reflected across our work in multiple evidence-based practices or initiatives at both the central decision unit and school levels, as set out in planning for the 2025–26 school year. This work is funded through the Division's First Nations, Métis, and Inuit Grant allocation of $15,402,766.04.

P2G2 Strategic Action: Implement evidence-based practices, like the High School Completion Coach initiative, to support continuous improvement and enhance the achievement of First Nations, Métis, and Inuit students.

Grounded in the OECD's (2017) report, the Division continued with evidence-based work that supports the achievement of self-identified First Nations, Métis, and Inuit students. As captured through Catchment Conversations and the Catchment reporting template, schools across the Division engaged with First Nations, Métis, and Inuit Elders, community partners and central units in support of building staff understanding and foundational knowledge of First Nations, Métis, and Inuit.

The following initiatives from the 2025–26 school year align with our Division's local measures and provide support to show trends, tendencies and insights for future action.

- To support Division high schools in offering learning opportunities for students that embed First Nations, Métis, and Inuit knowledge and history, the Division acquired the following three locally developed courses from another school division:
  - Métis History and Stories 15
  - Indigenous Art and Ceremony 25
  - Pathways to Reconciliation 35
- During the 2025–26 school year, steps to help build staff capacity around Indigenous perspectives, worldviews and culture were supported through the First Nations, Métis, and Inuit consultant teams. Examples of this support include:
  - Engaging with Elders, Knowledge Keepers and Cultural Advisors to support the development of foundational knowledge.
  - Facilitating PL opportunities to increase foundational knowledge of First Nations, Métis, and Inuit cultures, languages, histories, perspectives and current realities in teaching and learning across Division classrooms.
  - Additionally, the Curriculum and Learning Supports (CLS) First Nations, Métis, and Inuit Education team developed interactive, hands-on, and culturally responsive learning kits designed to align with Kindergarten to Grade 6 curriculum; an example is the Métis Stories Learning Kit.
- To support the integration of foundational knowledge into the development of Social Studies resources, the resource development team and First Nations, Métis, and Inuit Education team worked together to plan, write and review lessons.
- To enhance understanding of work happening across the Division and to help inform reporting, a template was created for catchment conversations (see *Appendix B*) to document the work occurring across schools and catchments in support of the academic journey of self-identified First Nations, Métis and Inuit students, as well as opportunities for all students and staff to develop understanding of, and respect for, the histories, cultures, languages, contributions, perspectives, experiences and contemporary contexts of First Nations, Métis, and Inuit. An analysis of this reporting indicated the following:
  - School catchments across the Division reported multiple initiatives that demonstrate a collective shift from singular cultural observances toward embedded systemic practices to support and enhance the connection and leadership of self-identified First Nations, Métis, and Inuit students within their school community, including:
    - Empowering student-led Diversity Clubs and Indigenous Student Clubs to organize catchment celebrations (Orange Shirt Day, National Day for Truth and Reconciliation, Rock Your Mocs, National Indigenous Peoples Day) and host multicultural awareness events.

    - Utilizing Sharing and Talking Circles, the Circle of Courage, and Response to Intervention (RTI) models to support student voice, holistic mental well-being and ultimately, academic success.
- Catchments across the Division reported through local measures (DFS data and school level student perception surveys), evidence of success in this work (e.g., self-identified First Nations, Métis, and Inuit students feeling a deeper sense of belonging), while acknowledging the opportunities and importance of continuing to build on this work at the school and catchment level under the direction of the 2026–30 Strategic Plan.
- Additionally, catchments participated in multiple initiatives intended to support all students and staff in building their awareness and knowledge regarding foundational knowledge of First Nations, Métis, and Inuit. Examples of these initiatives include:
    - Participating in immersive experiential, cultural and land-based learning opportunities.
    - Designing more catchment professional learning opportunities for staff to support increased confidence in foundational knowledge.
    - Establishing school-level lead teacher teams, shared leadership teams and communities of practice within catchments to co-create curricular units and share learning and teaching resources in support of First Nations, Métis, and Inuit education.
    - Weaving Indigenous ways of knowing and being into teaching and learning activities for the benefit of all students across subject disciplines.
    - Building authentic partnerships with Elders, Knowledge Keepers, and Indigenous cultural performers and artists.
- When reporting, principals observed a greater sense of building teacher confidence and staff efficacy in supporting the work of advancing Truth and Reconciliation, and foundational knowledge of First Nations, Métis, and Inuit histories, cultures, languages, contributions, perspectives, experiences and contemporary contexts.

High School Completion

The High School Completion Coach (HSCC) model is an evidence-based approach focused on strengthening First Nations, Métis, and Inuit students' academic achievement in an environment that is welcoming and inclusive, where First Nations, Métis, and Inuit culture is visible and valued. The model has been developed to target many of the highest impact practices identified in the OECD's 2017 Promising Practices report.

High Impact Strategies of the HSCC Model (Informed by OECD *Promising Practices in Supporting Success for Indigenous Students*)

- Having a plan for high school completion and monitoring for progress
- Providing tailored support responsive to the needs of an individual student
- Engaging families
- Facilitating learning activities that support progress
- Providing dedicated rooms and access to cultural experiences (such as smudging)

- Four Division high schools participated in the HSCC model for the 2025–26[15] school year: Dr. Anne Anderson, Eastglen, Jasper Place and Queen Elizabeth.
  - The initiative is built around the role of High School Completion Coaches who work directly with students, supporting their plan to complete high school and transition to post-secondary education or the world of work. The work of coaches included the following for the 2025–26 school year:
    - 1,872 individual coaching sessions.
    - 35 post-secondary and/or career transition sessions, including presentations by post-secondary institutions and partner organizations.
    - 19 leadership activities, including a three day Indigenous Youth Mentorship and Training Camp, markets where students display and/or sell items they have made, leadership clubs and volunteering at elementary school activities.
    - 355 engagements with self-identified First Nations, Métis, and Inuit students and their families, including emails, phone calls, conferences and school family nights.
  - The HSCC model includes First Nations, Métis, and Inuit Cultural Advisors who provided a range of opportunities for cultural connection for students, including:
    - Land-based learning experiences.
    - Cultural teachings through creation of Parfleche earrings, ribbon skirts, ribbon shirts and regalia.
    - The opportunity for students to participate in smudging.
    - Classroom presentations in collaboration with teachers.
    - Whole school activities such as round dances, blanket exercises, culture camp, dance and drum performances.

[15] 2025–26 activities were impacted by the October labour disruption and several staffing vacancies/leaves, which impacted activities and data collection.

Each year, participating students are invited to complete the HSCC survey (*see Table 32*). These results demonstrate the importance of this model and the positive impact it has for students.

Table 32. Student feedback on High School Completion Coach Model: % strongly agree and agree

	2020–21	2021–22	2022–23	2023–24	2024-25	2025-26
	n=24 (2 schools)	n=71 (3 schools)	n=70 (3 schools)	n= 160 (4 schools)	n=79 (4 schools)	n=107 (4 schools)
Having high school completion coaches helps me have a sense of belonging at school.	87	91	99	98	97	100
Having high school completion coaches has helped to provide cultural experiences for students.	87	91	Having high school completion coaches creates opportunities for me to participate in cultural teachings and experiences.		95	97
			97	98		
Having high school completion coaches helps me to think about my future (e.g. selecting courses and exploring after high school plans).	92	94	99	98	94	95
Having high school completion coaches helps me with my learning.	96	89	Having high school completion coaches helps me with my academic achievement.		97	97
			99	98		
In general, it is helpful having high school completion coaches at my school.	91	99	100	100	97	100

Linda Wright, a contemporary Gwich'in artist, was commissioned to create this artwork to honour 2025–26 First Nations, Métis, and Inuit high school graduates at Edmonton Public Schools. Through art, she intends to develop a sense of appreciation for the north and provide insight into oral storytelling traditions.

- In *The Journey and Path Forward,* the Wolf represents Humility, the Eagle Love, the Bison Respect, and the Bear Courage. These four animals, along with a beaded graduation cap and floral stole, honour the graduate's journey. The Edmonton skyline and teepees anchor the background, while an honour eagle feather connects the graduate to the Creator, embodying strength and wisdom. Finally, the Inukshuk sun symbolizes hope, safety, and community guidance (Artist statement).

The Journey and Path Forward

Additional Actions Taken in Support of Priority 2 Goal 2

- To help enable access to indigenous programming and support attendance, the Division uses funding from the First Nations, Métis, and Inuit Grant allocation to cover school bus fees for students enrolled at awâsis waciston and amiskwaciy Academy schools.

P2G2: Summary of Results and Analysis

The 2022–26 Division Strategic Plan has centred the Division's work in support of anti-racism, reconciliation and equity into governance and operational practices and frameworks. This work has evolved over the past four years from developing capacity for foundational readiness to embedding this work into strategic and responsive actions. This momentum will carry forward to support the 2026–30 Division Strategic Plan and demonstrates responsiveness to Division results.

The achievement data and actions presented as part of Priority 1 Goal 2 (*see Tables 10, 19, 22 and Appendix E: CAT4*) reflect Division results for self-identified First Nations, Métis, and Inuit students, demonstrating steps forward, but also reinforcing the importance of the Division's continued efforts in support of student success.

High School Completion results for self-identified First Nations, Métis, and Inuit students indicate the importance of evidence-informed promising practices in support of student success and high school completion for self-identified First Nations, Métis, and Inuit students. In 2025–26, the Division maintained its results in the areas of high school completion, dropout rate, the number of students eligible for the Rutherford Scholarship and the six year transition rate *(see Table 33)*. The Division remains focused on actions grounded in evidence-based practices that will continue to support this work.

Table 33. Alberta Education and Childcare Assurance Measures—High School Completion

Self-identified First Nations, Métis, and Inuit Students—Division compared to Province

Measure & Evaluation	Edmonton School Division						Alberta

Local Measures

In reviewing our Division's local measures, results from the 2025–26 DFS confirm that the majority of students are engaging in learning about Indigenous perspectives and contributions in school and also reinforce opportunities for continued growth in the Division's work and commitment towards supporting and enhancing the educational experiences and achievements of self-identified First Nations, Métis, and Inuit students (*2025–26 DFS Summary Report, Figures 22-25).*

- A significant proportion (93.8 per cent) of students in 2025–26 agreed that they feel they have the opportunity to learn about the contributions of Indigenous peoples, a result that has been consistent since 2022–23.

Over the past four years, there have been some notable improvements in students', staff, and families' perceptions of the impact of the work the Division has been undertaking in support of truth and reconciliation.

- In 2025–26, more students (85.4 per cent) agreed their school takes actions to support truth and reconciliation compared to 2022–23 (79.6 per cent). *(see 2025–26 DFS Summary Report, Figure 18)*
- More principals, assistant principals and teachers (80.8 per cent) agreed with the statement “I have the knowledge and skills to program for/support students who are First Nations, Métis, and Inuit” compared to 2022–23 (78.7 per cent). *(see 2025–26 DFS Summary Report, Figure 46)*
- In 2025–26, more families (74.0 per cent) agreed their child’s school kept them informed of steps being taken to support truth and reconciliation compared to 2022–23 (69.3 per cent). *(see 2025–26 DFS Summary Report, Figure 87)*

Our progress in this work and ongoing examination of data combined with feedback from staff, students and families, provides a foundation for us to reflect on “what’s next” as we look ahead to our 2026–30 Division Strategic Plan and align with the Provincial Strategic Priorities for Education Regulation.

Mural at awâsis waciston School created by artist Branden “BusyRawk” Cha and Anishnaabe Cultural Educator and artist Que Rock - Quenten Commanda.

Priority 3

Promote a comprehensive approach to student and staff well-being and mental health.

Priority 3: Promote a comprehensive approach to student and staff well-being and mental health.

Outcome: Student and staff well-being is intentionally supported through access to a variety of resources and supports.

Edmonton Public Schools uses a collaborative and comprehensive approach to support students and staff well-being with the intent of helping students and staff to grow and thrive in their learning and working environments. In 2025–26, this responsibility was grounded in Alberta's *Education Act, Section 33(1)(d)*. Additionally, the Alberta *Teaching Quality Standard* (TQS) requires all teachers to be aware of and facilitate *"responses to the emotional and mental health needs of our students."* The Division further formalizes its role and responsibilities in this area through Division board policies, administrative regulations and practices or procedures.

The Division's work to support well-being and mental health for students is framed within a pyramid of intervention model (*see Figure 7*) and grounded in the internationally recognized Comprehensive School Health (CSH) framework, which is a whole school approach as it touches on all aspects of student health and well-being. The Division works in partnership with Primary Care Alberta (PCA) around this approach.

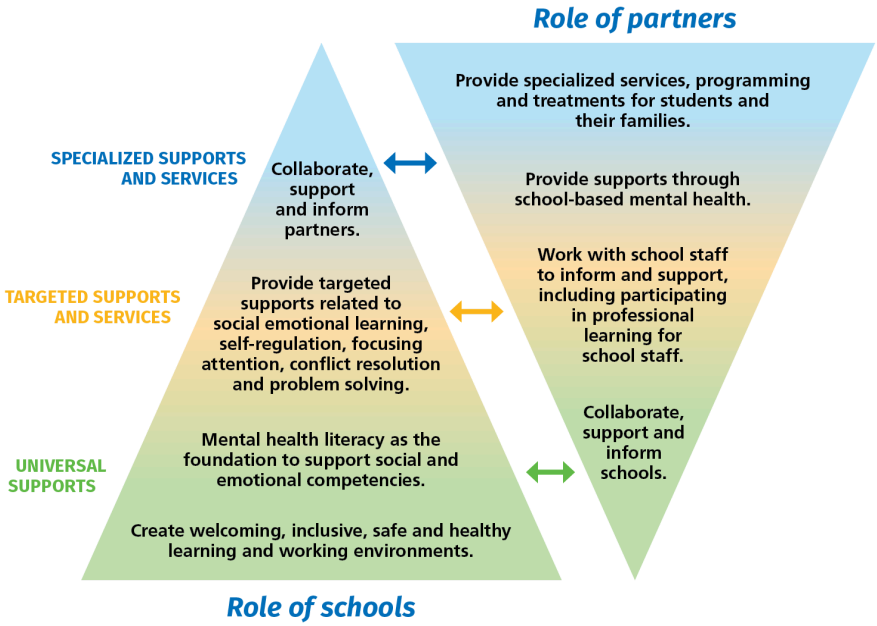

Figure 7. *Pyramid of intervention demonstrating the interplay between the role of schools and the role of health partners* (Edmonton Public Schools, 2023)

The work of PCA in support of well-being is paralleled alongside the work of schools in Figure 7. This figure helps to demonstrate the roles of educators and health professionals in respect to student well-being. We support a consultative model that informs educational programming while health professionals provide treatment. Figure 7 demonstrates how our work is complementary and the role of each organization through the construct of the pyramid of intervention.

The Division has a range of initiatives in place that span across all three levels (Universal, Targeted and Specialized) of the pyramid of intervention and reflect the efforts of both schools and central units to support the well-being and mental health of students. Schools and central teams work together on mental health capacity building initiatives focused on providing universal (prevention and promotion) mental health supports for students across Division schools. As the mental health needs of students become more complex, the need for targeted and/or individualized supports increases. Students requiring specialized intervention receive a continuum of support appropriate to their identified needs. Complementing this work, the role of Division health partners has become even more important. An example of how health partners support the work of schools is PCA's virtual hub of health promotion-related resources through Healthier Together Schools.

Table 35 provides a high-level summary of some of the Division's student-focused mental health and well-being initiatives that demonstrate how the pyramid of intervention translates to practice across the Division. Further details around these initiatives are explored below under the various actions within Goals 1 and 2 of Priority 3.

Table 35. Overview of work undertaken by the Division in 2025–26 framed within the pyramid of intervention

Specialized Supports For a *small* number of students requiring intensive individualized supports.	• CARE (Confidence, Academics, Relationships and Emotional Regulation) classrooms in two schools for students in Grades 4 to 6. • Two CASA classrooms, one for Grades 4-6 and one for Grades 7-9. • Mental Health Transition team supports students transitioning to/through and from health-based services back to community schools. • Risk Assessments team is available to all schools in response to critical student needs.
Targeted Supports For *some* students who require additional support.	• School nutrition support through various partners and approaches. • Access to school-based mental health services, support and expertise through the Division's Mental Health Team. • Multi-disciplinary school-based wrap-around supports (e.g., counsellors, Roots and Wings workers, Success Coaches, school family liaisons, mental health therapists). • The Critical Incident Support Services team is responsive to emergent critical situations.
Universal Supports For *all* students.	• The belonging and safety framework, *Building a Culture of Belonging and Safety: A Shared Responsibility*. • The Division's mental health framework resource, *Navigating Mental Health: A Coordinated Approach*. • Division Feedback Survey (DFS) questions focused on this area. • The Division's Wellness Coaches who support schools in taking a Mental Health Capacity Building (MHCB) approach to student well-being. • Mental Health Parent and Caregiver Learning series supported through SLS.

The following indicators provide insight into the impact of the work the Division has been undertaking over the past four years to address Priority 3 through Goals 1 and 2. This work encompasses staff and student mental health, well-being and sense of belonging in Division working and learning environments. The analysis will reflect both work accomplished in 2025–26 and over the term of the 2022–26 Division Strategic Plan and 2022–26 Four-Year Education Plan.

Provincial Measures

Assurance Survey - Welcoming, Caring, Respectful and Safe Learning Environments (WCRSLE): To support divisions in monitoring their responsibilities for well-being, the province introduced the WCRSLE measure in the Alberta Education and Childcare Assurance survey in 2020–21.

In 2025–26, there was a significant overall improvement both provincially and locally for this measure. Some observations regarding Division results using the sub-questions that make up this measure include the following:

- Overall student results increased compared to the prior year and compared to the previous three year average, as evidenced by:
  - An increase in elementary (+3), junior high (+3) and high school (+8) students' perceptions that students care about each other.
  - An increase in elementary (+4), junior high (+4) and high school (+7) students' perceptions that students respect each other.
  - An increase in elementary (+3), junior high (+1) and high school (+3) students' perceptions that students feel like they belong.
- Overall parent perceptions in this area improved, mirroring provincial results. However, it is difficult to determine whether these results can be attributed to a broader change in parent perceptions or if it is due to lower respondent rates.
- The Division's teacher perceptions remained very similar to prior years' results.

The results confirm the importance of the Division's commitment to initiatives that enhance students' sense of belonging and safety within their school community. The work in this area reflects the Division's responsibility to support student and staff well-being and mental health through actions that foster welcoming, caring, respectful and safe learning and working environments for all in partnership with families and community.

Table 36. Alberta Education and Childcare Assurance Measures

Welcoming, Caring, Respectful and Safe Learning Environments (WCRSLE)—the percentage of parents, teachers and students who agree that their learning environments are welcoming, caring, respectful and safe.

	Edmonton School Division						Alberta					
	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall
Overall	84.7 (n= 31,557)	82.3 (n= 30,705)	82.7 (n= 30,345)	Intermediate	Improved Significantly	Good	85.8 (n= 279,038)	84.4 (n= 269,282)	84.4 (n= 263,998)	Intermediate	Improved Significantly	Good
Parent	86.5 (n= 2,886)	82.4 (n= 3,152)	83.7 (n= 3,652)	Intermediate	Improved Significantly	Good	86.6 (n= 37,197)	85.2 (n= 34,452)	85.3 (n= 33,190)	Intermediate	Improved Significantly	Good
Student	76.6 (n= 24,222)	74.2 (n= 23,332)	74.1 (n= 22,615)	Intermediate	Improved Significantly	Good	77.9 (n= 208,049)	75.7 (n= 201,268)	75.8 (n= 198,148)	Intermediate	Improved Significantly	Good
Teacher	90.9 (n= 4,449)	90.4 (n= 4,221)	90.3 (n= 4,078)	Low	Maintained	Issue	92.9 (n= 33,792)	92.3 (n= 33,562)	92.0 (n= 32,660)	Intermediate	Improved Significantly	Good

Local Measures

Division Feedback Survey (DFS) Priority 3: The DFS provides staff, students and families with the opportunity to indicate a sense of well-being, welcome or belonging in their school community, which helps identify successes and opportunities in the work the Division undertakes in support of Priority 3. Over the past four years, many of the indicators in the DFS for Priority 3 have improved, while some remain areas of opportunity for the Division. Highlights of these results are provided throughout this report on Priority 3. In respect of overall well-being, student perceptions *(see Figure 8)* continues to improve. For this same measure, staff perceptions of overall well-being have declined *(see Figure 9)*.

Figure 8. *DFS: Student responses to question, "How are you doing this school year?"*

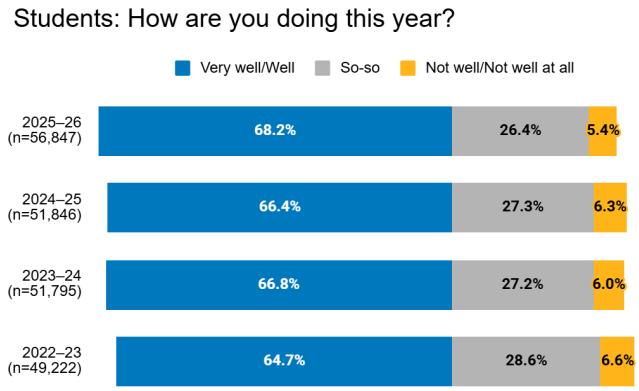

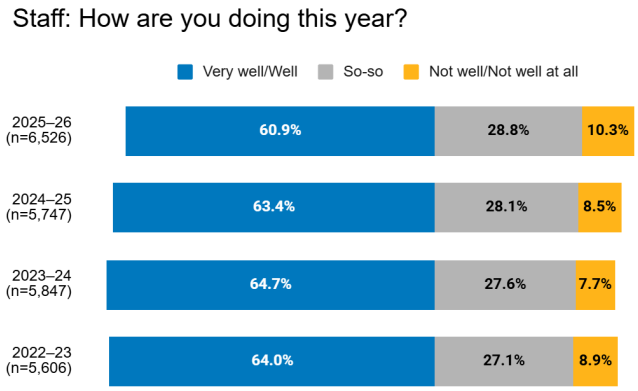

Figure 9. *DFS: Staff responses to question, "How are you doing this year?"*

While staff indicated a decrease in their overall well-being in 2025–26, they continued to feel a strong sense of belonging at their workplace. Over the term of the 2022–26 Division Strategic Plan, staff feelings of belonging remained consistent and substantial across staffing groups, with almost 90 per cent of staff experiencing a sense of belonging.

2025–26 DFS results indicate that:

89.5 per cent of **staff** agree that "I feel a sense of belonging at my workplace."

2022–23	2023–24	2024–25	2025–26
88.6	87.9	89.3	89.5

In 2025–26, more students felt they belonged at their school and more perceived that other students felt they belonged as well. This confirms that the intentional work schools are doing to support student belonging and well-being is having an impact. Within this progress, it should be noted that students perceive their own sense of belonging at school more positively than their perceptions of their school as a place where all students feel they belong, a trend that has held over the past four years (*see Figures 10 and 11*).

Figure 10. *DFS: Student perceptions of their own belonging*

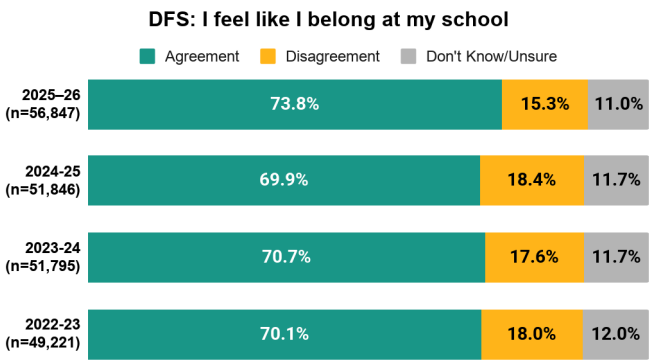

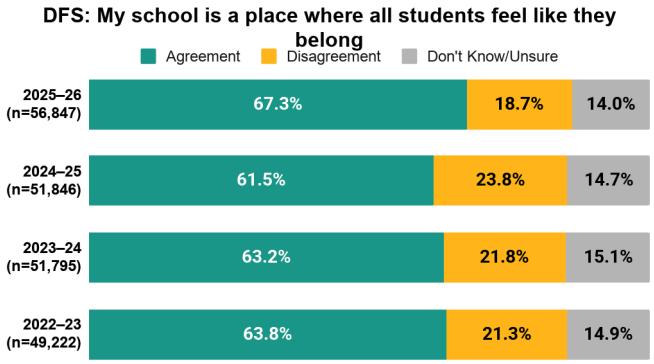

Figure 11. *DFS: Student perceptions of other student's belonging*

Staff and family perceptions of students' sense of belonging have remained similar over the term of the 2022–26 Division Strategic Plan, and can generally be considered to be positive results. There are, however, differences between student, family and staff perceptions of student belonging, which illustrates the need for ongoing engagement and reflection. The *Belonging and Safety Division Data* report offers additional insights that confirm the importance of this work for schools and the Division.

2025–26 DFS results indicate that:

92.4 per cent of **staff** agree that "my school is a place where all students feel like they belong."

2022–23	2023–24	2024–25	2025–26
91.0	90.2	91.2	92.4

87.0 per cent of **families** agree that "my child feels like they belong at school."

2022–23	2023–24	2024–25	2025–26
86.0	86.0	85.1	87.0

Overall, results confirm the ongoing importance of building relationships and connections with students and families, and supporting staff well-being. The Division's focus on belonging remains timely, as we are responsive to the needs of students and taking steps to strengthen how they see themselves and feel heard within their school communities.

Goal 1: Support students and staff in building skills, strategies and relationships that contribute to positive mental health.

P3G1 Strategic Action: Implement evidence-based approaches and practices intended to enhance student and staff well-being.

The Division has a range of initiatives in place that span across all three levels of the pyramid of intervention and reflect the efforts of both schools and central units to support the well-being and mental health of students. Examples include: building staff capacity to support student resilience, transition support and 1:1 therapy. According to the Division Feedback Survey (DFS), staff have continued to feel confident about helping students to build skills that support their wellness over the past four years.

2025–26 DFS results indicate that:
94.8 per cent of staff agree with the statement "I feel confident helping students build skills that support their wellness."

2022–23	2023–24	2024–25	2025–26
94.1	94.2	94.5	94.8

In alignment with the *Navigating Mental Health: A Coordinated Approach* framework, the Division leverages both Division resources and community partnerships to provide a continuum of mental health and well-being support for students:

The Navigating Mental Health: A Coordinated Approach Framework

- Emphasizes the importance of building a shared language around mental health and well-being across the school communities.
- Assists school staff in awareness of pathways through mental health services and supports for students.
- Supports school staff with strategies that build on student strengths.
- Reinforces the importance of a school-wide approach to well-being.
- Guides schools in developing action plans that support well-being.

- The MHCB Wellness Coaches, through Specialized Learning Supports (SLS), prioritize universal support through classroom sessions and activities for students, staff PL opportunities and parent information sessions. The coaches work closely together with the Mental Health Therapist team to reduce barriers to accessing additional mental health services for students. For the 2025–26 year, the MHCB Wellness Coaches supported 1,571 referrals for Universal Programming.
- The Mental Health Team provides crisis and risk assessment support for students throughout the Division, supporting a responsive approach that is offered equitably to all schools with an intended outcome of streamlined and timely services for students. The team uses an interdisciplinary approach and includes such roles as psychologists, social workers, counselling therapists and psychiatric nurses. Across disciplines, the Mental Health Team received over 2,060 referrals. Additionally, 160 risk assessments were also completed for the 2025–26 school year.

- The Mental Health Capacity Building (MHCB) partnership with Recovery Alberta supports six wellness coaches and a program coordinator. The wellness coaches promoted positive mental health for children, youth and families through programming that builds capacity of knowledge and skills related to universal supports and services. This past year, two additional wellness coaches were hired to support an increase in programming.

  Through this programming, the MHCB team were able to make approximately 85,000 connections with students, 3,600 connections with staff and 2,725 connections with families[16].

Supporting Mental Health

In July 2026, the MHCB Team delivered universal mental health sessions across 13 Division summer school sites.

- Designed to foster peer connection, these activity-based sessions—included an escape room, digital media literacy challenges, and perspective-building activities—helped students develop practical skills in teamwork, healthy communication, resilience, and online safety.

- Mental health therapists (MHT) work directly in the school community to deliver school-based mental health supports to students in small groups or 1:1 intervention, provide parent information, support school/teacher consultations and provide transition support (students leaving tertiary care back to community schools). This increase in referrals reflects the responsiveness of this team and the importance of students having access to school-based mental health support.

2024–25	2025–26
919 referrals for school-based mental health services	1,480 referrals for school-based mental health services
180 referrals for transition support	338 referrals for transition support

- A MHT is a key role in the Division's School Resource Officer (SRO) Program. The Program, delivered in partnership with the Edmonton Police Service, was located in 15 Division high schools and six Division junior high schools for the 2025–26 school year. The MHT works alongside the SRO and school leadership team to support a multidisciplinary approach to working with students. MHTs and SROs work collaboratively to support restorative practices, referrals to other external agencies, access to community or health services and supporting students through complex circumstances. From September 2025 to June 2026, the SRO Program's MHT received 664 referrals. These referrals were initiated by student services staff, administration teams, SROs and self-referrals from students and demonstrate the impact of this multidisciplinary approach.

[16] Connections refers to the number of attendees for a session combined with the number of times a session was offered. This is not a count of unique individual interactions.

- The Division supported mental health classrooms at Aldergrove and Keheewin Schools. Initiated in 2022–23, Confidence, Academics, Relationships and Emotional Regulation (CARE) Classrooms consist of a teacher, educational assistant, mental health therapist and consulting registered psychologist. This 12-week program is designed as an early intervention for students in Grades 4 to 6 that focuses on mental health and well-being and supports positive engagement and participation in school.
- CARE classrooms build capacity with students, their families and the students' home school by focusing on three main goals:
  - Improve implementation of learning strategies, accommodations and support by school staff.
  - Increase academic achievement, emotional regulation and social competence.
  - Strengthen school-home partnerships.
- Students learn new social and problem-solving skills and strategies that help them gain confidence and manage their thoughts and feelings, with the intent that they come away from the CARE classroom with practical strategies to help them in school, at home and in the community. A classroom cohort serves 10 students and each classroom can support three cohorts per year (Total capacity: 60 students). At the completion of the 12 weeks, students are supported to transition back to their home school by the mental health therapist.

Evidence of Impact from Program Evaluation

Over the past four years, feedback from CARE Classroom families has consistently indicated high levels of satisfaction (90–100 per cent) with this program, with 80–100 per cent of families observing positive changes in their child. Family and student observations include:

- Families indicated they have seen positive changes in their child's emotional regulation, confidence, school engagement and social competence.
- Parents also highlighted their own increased confidence, knowledge and skills in supporting their child's development.
- The majority of parents reported improved student attendance and enthusiasm for school.
- Students showed more willingness to participate and fewer struggles with transitions.
- Students indicated improvement in their anxiety-related symptoms.
- Families reported using strategies from CARE social/emotional programming to support emotional regulation and communication beyond the school setting.

CARE Classrooms: enrolment and referring schools			
2022–23	**2023–24**	**2024–25**	**2025–26**[17]
1 site: 20 students 10 referring schools	1.5 sites[18]: 40 students 21 referring schools	2 sites: 57 students 27 referring schools	2 sites: 60 students 31 referring schools

[17] Note the fall 2025 CARE classrooms were disrupted by the labour action resulting in adjustment to program delivery.
[18] The 2nd site opened in spring 2024.

- The Critical Incident Support Services (CISS) team is a collaborative effort between Specialized Learning Supports (SLS) and Hospital School Campuses (HSC), supporting students and school staff following critical incidents at schools. It is a multidisciplinary team composed of social work consultants, psychology consultants and mental health therapists with specialized training and experience in supporting school communities as they navigate and respond to critical incidents. The team provides immediate, debriefing and follow up support for students and staff, including facilitating connections to community resources. During the 2025–26 school year, the CISS team provided 471 hours of direct support to address a variety of events that impacted students, staff and school communities. Mult-year trend data (as indicated in the chart below) shows the importance of the role of the CISS team to be responsive when there is a critical incident. This data also demonstrates school capacity and confidence to support incidents of this nature, as the Division has worked to build capacity in support of Priority 3 of the Strategic Plan.

Formal CISS activations			
2022–23	**2023–24**	**2024–25**	**2025–26**

- To support staff mental health and well-being, there are a range of supports and services available through the Employee and Family Assistance Program (EFAP) provided through Greenshield. Greenshield is an EFAP provider committed to a health care experience with the patient at its centre. These services include, but are not limited to: counselling supports, healthy coaching supports, financial advice and legal guidance. The Division uses multiple means of communication to support staff awareness regarding these services.

- Wellness information and mental health resources and supports are also accessible to all staff through the Division's internal website. This includes a link to the Alberta School Employee Benefit Plan (ASEBP).
- According to the DFS, staff awareness of the range of supports available to them has remained relatively consistent over the Strategic Plan. The data demonstrates that there is the opportunity to explore additional means of communicating this information to staff.

2025–26 DFS results indicate that:
83.2 per cent of staff agree with the statement "I am aware of the range of supports for my well-being available through the Division's benefit program."

2022–23	**2023–24**	**2024–25**	**2025–26**
84.6	**82.3**	**83.2**	**83.2**

- Under the direction set out in Board Policy GCA.BP Approval of the School Year Calendar, the Division's annual school year calendar is developed prioritizing days of significance wherever possible. Staff have shared that having more days of significance recognized in the Division's calendar supports their well-being and sense of belonging within the Division.
- The Division continued to use the Multifaith Calendar as a tool to promote awareness around various days of significance and the calendar continues to support schools in planning.
    - Feedback around the calendar demonstrates that having the Multifaith calendar has increased a sense of belonging for staff, students and families, as they see themselves represented in the days highlighted in the calendar.

P3G1 Strategic Action: Continue to provide opportunities for schools and central units to build upon their capacity to support student resilience.

Two key data sources that provide the Division with an evidence-based perspective to this work are DFS data and the Alberta Education and Childcare WCRSLE Assurance measures. Looking at perceptions of belonging and safety within these data sets was a catalyst to engage with students to hear from them directly how they experience school and to better understand their feelings of belonging and safety within their school community. Through the data and conversations with students, the Division knows there continues to be an opportunity to build upon current efforts in support of belonging and safety to enable more students to feel a sense of connection and well-being while at school. The importance of this work was further reinforced through the belonging and safety analysis of the extended student demographic data (*Belonging and Safety Division Data*).

- Informed by ongoing evidence and feedback, the Division developed a framework that addresses belonging and safety in schools, *Building a Culture of Belonging and Safety: A Shared Responsibility*. Launched in February 2026, the framework supports schools in this work and has been informed by research, student voice and feedback from school leaders.
  - Centered around school culture, the framework highlights four factors that contribute to a positive sense of belonging and safety within a school community:
    - Learning environment
    - Student, family and staff engagement
    - Family and community partnerships
    - School operations

The framework supports schools through posing inquiry questions and providing exemplars that

- Encourage reflection on current practices
  - *Identify what is working well and areas to improve.*
- Provide examples of evidence-based strategies
  - *Learn about and explore additional ways to enhance belonging and safety.*
- Support a layered approach
  - *Provide support for all students across a continuum of proactive to responsive strategies.*
- Support engagement with school communities
  - *Seek feedback and listen to the voices of students, staff and families across the school community.*

- In 2025–26, several catchments developed a Priority 3 catchment goal focused on building skills, strategies and relationships that foster feelings of belonging, safety and well-being within the school community. Actions taken in support of this goal included:
  - Efforts focused on staff capacity:
    - The opportunity to self-select participation in PL centered around topics like exploring practical strategies for student engagement, classroom management or implementing culturally responsive practices, such as Indigenous ways of learning and perspectives.
    - Cross-school collaboration to support building a sense of community amongst catchment members and developing common language to support enhanced understanding of concepts and collaborative professional dialogue
    - Providing opportunities for staff to extend their leadership skills
  - Efforts focused on student engagement:
    - Proactively supporting student transitions by building more connections and activities for students between schools
    - Building common academic, social and emotional vocabulary across a catchment to better support students after they transition to a new school

        - Student mentorship initiatives (e.g., pairing older students with younger students for a variety of activities, within and across schools)
        - Building student voice and leadership opportunities through catchment wide student events (like career day, tournaments, student carnival)
    - Principals from across the catchments observed the following results when reporting around this goal:
        - Improved student attendance,
        - increases in positive family engagement,
        - more classroom activities supporting community building and connection,
        - an increase in student volunteerism and positive contributions to the school community
        - growth in a sense of shared responsibility among staff to enhance school culture.
- A major initiative over the past four years has been the Division's multi-year partnership with Dr. Ungar, the founder and Director of the Resilience Research Centre at Dalhousie University, which has included the Youth Resilience Survey (YRS) Instrument, the R2 Resilience Program© and staff PL opportunities. The R2 program helped build capacity in teachers and school staff in creating a nurturing environment and school culture that fosters belonging and promotes student well-being. Between 2022–23 and 2024–25, 86 schools participated in the R2 program. Along with learning opportunities offered on PL days and during Summer Institutes, Division staff also engaged in train-the-trainer PL and communities of practice alongside Dr. Ungar to help build out our systemic capacity to support this work. As these practices become further embedded across the Division, their broader impact strengthens proactive, strengths-based support for student well-being. There are schools that continue to indicate in their 2025–26 plans the use of elements of the R2 program as a strategy to build school culture that promotes belonging and well-being.

P3G1: Summary of Results and Analysis

Results from the 2025–26 DFS highlight the impact of positive actions taken by the Division as well as opportunities to enhance its efforts in supporting skills, strategies and relationships that foster positive mental health and well-being (*see Priority 3 in the 2025–26 DFS Summary Report*). This work in schools starts with universal strategies that benefit all students and as the work becomes more targeted is often supported through partnerships or connections with community agencies, health professionals or the provincial health agencies. Demonstrating the impact of this work, in 2025–26, more students indicated that they felt their school helped them develop skills that support their wellness.

2025–26 DFS results indicate that:

74.9 per cent of students agreed with the statement "my school helps me develop skills that support my wellness."

2022–23	2023–24	2024–25	2025–26
70.3	72.5	71.6	74.9

Additionally, through the DFS, students were asked about the connections made in school with teachers and other school staff. Across the four years of the 2022–26 Division Strategic Plan there has been an increase in positive student perceptions of connections with adults in their school (as illustrated in the chart below). These results demonstrate the role school staff play in the lives of students and the importance of the Division's ongoing work to explore ways to further enhance or deepen connections between students and school.

2025–26 DFS results indicate that:

72.1 per cent of students agreed that "the adults at my school care about me."

2022–23	2023–24	2024–25	2025–26
69.6	70.4	69.6	72.1

81.9 per cent of students agreed that "I have at least one adult in my school who I would go to for help if I need it."

2022–23	2023–24	2024–25	2025–26
78.8	80.2	80.8	81.9

77.6 per cent of students agreed with the statement "I feel safe at school."

2022–23	2023–24	2024–25	2025–26
73.3	74.0	72.8	77.6

A further extension of this work is also found in the student results regarding feeling safe at school, where 2025–26 results indicate a significant improvement over the prior three years. The overall positive trend in many of the DFS questions related to Priority 3 speaks to the intentional work that has been occurring across the Division over the last four years.

Goal 2: Support students and staff so they experience a greater sense of belonging and social, emotional and physical well-being.

P3G2 Strategic Action: Continue to engage with staff, students and families to better understand how to enhance learning environments and school communities that support a sense of belonging and success.

As outlined in the Engagement section of this document, the Division has many mechanisms for staff, students and families to share their voice and perspectives. This work happens at both a system level and within individual school communities. These engagement opportunities surface actions being taken that support connection to school and also identify ways schools can further enhance a sense of belonging and safety within the school community. The following are three unique examples of student voice.

- Student Senate: During the 2025–26 school year, Student Senators in their role as youth leaders, identified three projects in their annual work plan that were important to them and their peers. These initiatives were aligned with the Division's Strategic Plan and included a live event project, an information kit project and a podcast project. A summary of the work they accomplished was presented to the Board of Trustees at the June 9, 2026, public Board meeting. Supporting materials, information and resources developed by the Student Senate for students are available on the Student Senate Website.

- To support a deeper understanding of how belonging and safety are experienced by students, the extended student demographic data (from fall 2022) was analyzed with Division data from the Youth Resilience survey, as the concepts of belonging and safety are foundational to school connection, academic success and well-being. The results of this work were summarized and shared in this report, *Student Demographic Data Report - A closer look at belonging and safety across student identity groups*, providing a clear foundation for action and confirming the importance of the Division's responsibility to strengthen students' sense of belonging and safety.

School Story

Empowering Student Voices: A year of leadership
Following Malcolm Tweddle Schools' journey of belonging and connection

At Malcolm Tweddle School, fostering a strong sense of belonging is a school-wide commitment. In 2025–26, the Student Leadership Team met bi-weekly to turn that commitment into action, creating meaningful opportunities to amplify student voices, develop essential leadership skills and cultivate a welcoming environment for every learner.

Through collaborative planning and dedicated service, these student leaders became the cornerstone of the school community. Student leaders demonstrated responsibility, empathy, collaboration and a commitment to making Malcolm Tweddle a welcoming place where all students feel valued, connected and supported.

From supporting their peers in the classroom to organizing school-wide events, their initiatives had a meaningful impact on school culture and student belonging. A highlight of this work was the production of the *Malcolm Tweddle Recipe Book 2026*, comprised of recipes from staff, students and families across the school community.

- The Division Feedback Survey (DFS) annually gathers insights from students, families and staff to assess the Division's progress towards the three priority areas of the 2022–26 Division Strategic Plan. The 2025–26 DFS includes questions specific to Priority 3 and was completed by 56,847 Grades 4 to 12 students, 7,891 families and 6,526 staff. Select results from the DFS related to belonging are highlighted below. The results highlight 2025–26, while also providing a sense of positive progression over the last four years.

2025–26 DFS results indicate that:

82.3 per cent of students agree that "at my school, I have opportunities to be involved in activities that support my sense of belonging."				**89.5 per cent of staff** agreed that "I feel a sense of belonging at my workplace."				**78.6 per cent of families** agreed that "I feel connected to my child's school."			
2022–23	**2023–24**	**2024–25**	**2025–26**	**2022–23**	**2023–24**	**2024–25**	**2025–26**	**2022–23**	**2023–24**	**2024–25**	**2025–26**
79.9	**79.9**	**79.1**	**82.3**	**88.6**	**87.9**	**89.3**	**89.5**	**75.7**	**77.2**	**76.6**	**78.6**

P3G2 Strategic Action: Enhance collaboration with partners to inform the strategic use of Division and community resources in support of student and staff well-being.

The work to support all students on their path to high school completion and create school communities that are welcoming, safe and inclusive for all is complex and is not done in isolation. The Division and schools work in partnership with many members of the Edmonton community who are equally committed to and invested in the success and well-being of children and youth. This work is evolving and responsive to the needs of students and looks unique within each school community. There are many great examples of how schools and members of the community work together in support of students and families.

- Schools have relationships and community connections that enhance educational opportunities and support student success. Each year through the development of a school plan, schools have the opportunity to recognize these community members, agencies or individuals who have supported their students. This process has identified more than 600 community connections across Division schools that provide supports, enrichment opportunities and services beyond that of educational programming. Some examples of these community connections are: sport activities, student leadership opportunities, career exploration, nutrition support, cultural activities, tutoring, field trip experiences, out-of-school time activities and donations.

A Partnership Story

Established in 2016, the evidence-based *All in for Youth (AIFY)* wrap-around initiative has been supporting students in socially complex schools for the past ten years. This initiative is a partnership between schools and the community, where school and agency staff work together to support students and families, removing barriers and enabling positive school outcomes. The *AIFY* community partners include: Boys and Girls Big Brothers Big Sisters, Community University Partnership (CUP), E4C, The Edmonton Community Foundation, The Family Centre and United Way. The initiative is in eight socially complex schools in the Edmonton community, including the following seven Division schools: Abbott, Delton, Eastglen, Ivor Dent, John A. McDougall, Norwood and Spruce Avenue.

A review of three-year high school graduation rates for students who attended an *All in for Youth* school for a portion of time on their path to high school completion found the following:

- Students who attended an AIFY school for three or more years saw a 27.4 per cent increase in graduation rates compared to students with similar social demographics at other schools.
- Eastglen High School continues to see the positive impact of this collaboration on their high school completion rates.

- The Community Helpers Program, supported by Recovery Alberta, is a peer-support initiative that promotes the mental health and well-being of youth and young adults while also supporting the adults who work with them. Designed for individuals aged 12 to 25, the program can be delivered in a variety of community settings and is well suited to schools.
  - Participating students develop skills in effective communication, self-care, stress management, problem-solving, and suicide awareness. They also learn to recognize when professional support is needed and how to connect individuals with appropriate community and mental health resources. For the 2025–26 school year more than 500 student helpers participated in the program, supported by their staff facilitators.
    - Last year's program included three in-person interschool student events, supported by the Mental Health Capacity Building Team and student leaders, these events focused on self-care, communication, student collaboration and mental health. The final event of the year was a HEADSTRONG Summit, delivered in partnership with Opening Minds of the Mental Health Commission of Canada, which

focused on reducing stigma surrounding mental illness and encouraging open conversations about mental health.
    - Across their school communities, the Community Helpers' students extended their leadership skills by promoting mental health awareness presentations, supporting exam-time wellness initiatives, leading lunchtime activities, and facilitating school-wide conversations that fostered connection, support, and help-seeking.

- In partnership with CASA Mental Health, the Division had two CASA classrooms, located at J.A. Fife School to support students in Grades 4 to 6 and a second classroom at Rosslyn School for students in Grades 7 to 9. Both classrooms accept up to 12 students per cohort, with two cohorts of students supported through the program over the course of the school year. The first cohort attends from September to the end of January, with the second cohort attending from February through to the end of June. Students attending a CASA classroom are supported by a multidisciplinary team that also works collaboratively with the family.
    - Entrance into the CASA classroom is determined using criteria set out by CASA Mental Health.
    - Enrolment over the past three years has been as follows:

	2023–24	2024–25		2025–26	
	Gr. 4–6	Gr. 4–6	Gr.7–9	Gr. 4–6	Gr.7–9
Enrolment	**11**	**15**	**18**	**12**	**21**

- The Edmonton Public Schools Foundation's mission is to, "raise awareness and funds to level the playing field for children who come to the classroom at a disadvantage." This mission is enacted through the ongoing support of the community, as the Foundation partners with organizations, volunteers and donors to bring each of the six pillars to life. Examples of this impact from the 2025–26 school year include:
    - Literacy Supports: Through a focus on early literacy the Foundation, with the generous support of community partners, supported classroom libraries in schools across the Division. These books help students foster a love for reading.
        - EPCOR's early literacy donation supported Full-day Kindergarten programs across the Division, supporting 38 classrooms through the purchasing of over 3,600 books, which were enjoyed by more than 1,650 students.
        - Jayman BUILT and the Westman Charitable Foundation supported 15 schools, resulting in over 5,750 books being purchased, sparking imagination and creativity for approximately 137 classrooms and over 3,400 students.
    - Top-ups for Tummies: 88 schools received funding to top-up, enhance and fill gaps within their school nutrition program. Across the Division, approximately 4,700 students a day received nutrition support at school through Top-ups for Tummies.
    - Chromebooks for Kids: 482 devices were gifted to students across 81 Division schools. These devices helped to ensure students have the tools they need at home to fully engage in their learning.
    - Fresh Hoops: These courts continue to spark joy, promoting physical health, mental wellness and community pride. In 2025–26, 4 courts were completed thanks to Go Auto's transformational gift.
    - Pack the Pack School Supplies Drive: In partnership with Kingsway Mall, this school supply drive collected over 2,000 school supplies—including backpacks, binders, paper and pencils—to support students in having the tools they need to be ready to learn.

Highlighting School Nutrition

School nutrition programming has become a critical support in many schools as a result of rising food insecurity across Edmonton.[19] To support this programming schools work with a variety of community partners to be responsive to student nutritional needs throughout the school day. Funding for school nutrition programming extends beyond the Alberta School Nutrition Program, funded by Alberta Education and Childcare, and includes a range of local and national organizations (Food for Thought, Breakfast Clubs of Canada, local service clubs and grocery stores). Additionally, many schools are supported by members of the local community who wish to be responsive to student nutritional needs.

For the 2025–26 school year, the province signed the Canada-Alberta National School Food Program agreement, through which Alberta Education and Childcare allocated targeted federal funding to the Division to support school nutrition programming. This additional funding strengthened the Division's capacity to be responsive to the growing nutritional needs experienced across Division schools. These dollars were accessed by 190 schools to enhance and sustain their school nutrition programs, including increased access to food for students and addressing necessary equipment needs.

School Story: Strathcona High School's Commitment to Food Security

The yearly service initiatives at Strathcona High School are an opportunity for Strathcona students to learn about servant leadership, entrepreneurship, global citizenship and social affairs, while giving back to their community. Students in the Leadership Program work behind the scenes to plan and organize each initiative but it is the collaborative effort of the whole school that results in community impact.

In 2025–26, the leadership program at Strathcona High School raised over $257,000 in support of the Edmonton Food Bank's purchase of an industrial cooler. This refrigeration unit provides storage for fresh donations year around, including local produce, helping to address food insecurity for families across Edmonton.

[19] In 2022, Statistics Canada reported that 21 per cent of Edmontonians were experiencing some level of food insecurity, the highest rate across census metropolitan areas. According to 2025 data from Edmonton's Food Bank their average monthly client hamper recipients increased 35 per cent between 2022 and 2024 and 38 per cent of their clients are children.

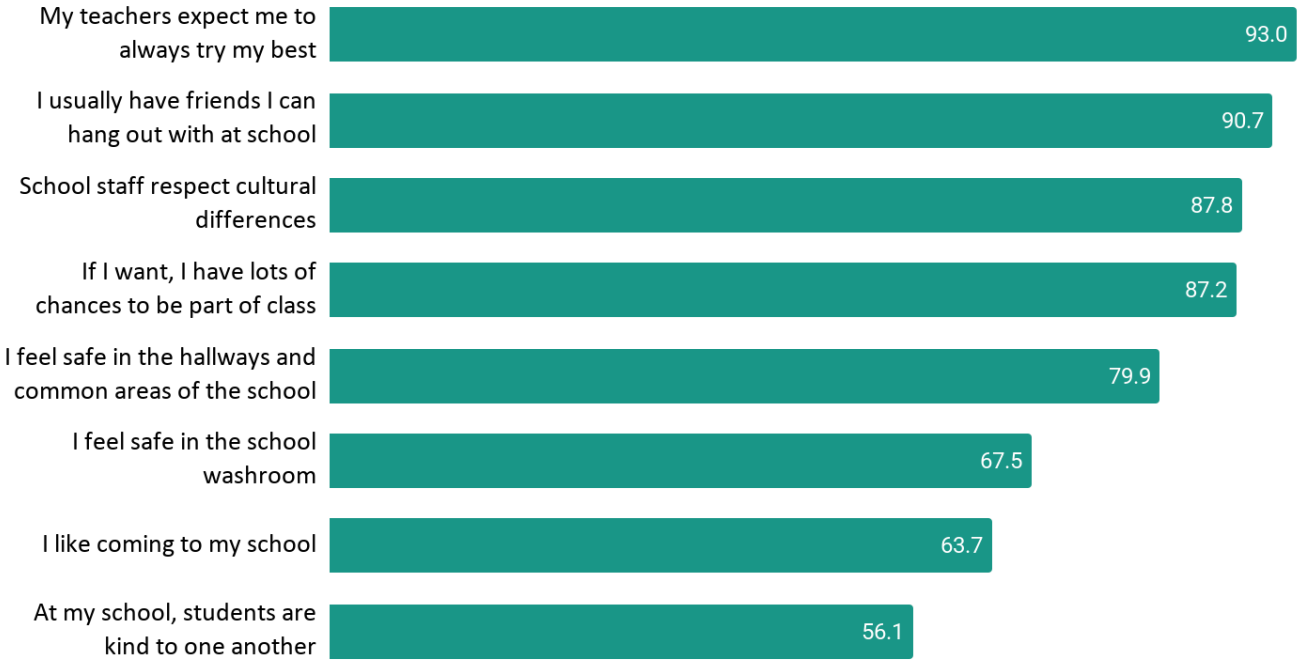

P3G2: Summary of Results and Analysis

Through the 2025–26 DFS, students, staff and families indicated improvement in their sense of belonging or connectedness with their (child's) school. These outcomes highlight the impact of prioritizing engagement, building relationships and working alongside dedicated partners in our shared commitment to student success and well-being.

Additional Actions Taken in Support of Priority 3 Goal 2

Through extensive engagement over the past four years with students, families, staff and members of the community, ongoing data analysis and examining research, the Division recognized the importance of gathering more targeted insights to help guide schools in fostering respectful, inclusive, and welcoming environments. To gain a deeper understanding of how students experience school, the Division piloted eight new questions in the 2025–26 DFS.

Figure 12. *2025–26 Supplemental DFS Questions: Percent student agreement with the statement*

These findings highlight key strengths to celebrate while also identifying meaningful opportunities for growth across the Division (see *Appendix D* for a link to the 2025–26 DFS Summary Report). The data from these questions will serve as a catalyst for ongoing dialogue with students, staff and families, as the Division strives to learn more, be responsive and demonstrate commitment to improvement. These efforts will be grounded in the 2026–30 Division Strategic Plan and demonstrate alignment with the Provincial Strategic Priorities for Education.

Summary of 2025-26 Financial Results

Student achievement continues to be the primary focus in every one of the Division's schools. The Division's priorities, budgeting process and results review reflect this focus.

Operational Results

The Division's total operating expenses for 2025–26 were $1,428.7 million, a variance of $18.8 million or 1.3 per cent, when compared to the spring approved budget total of $1,447.5 million. Figures 13-15 illustrate expenses by type and program.

Figure 13. *Expenses by Type (in $ millions)*

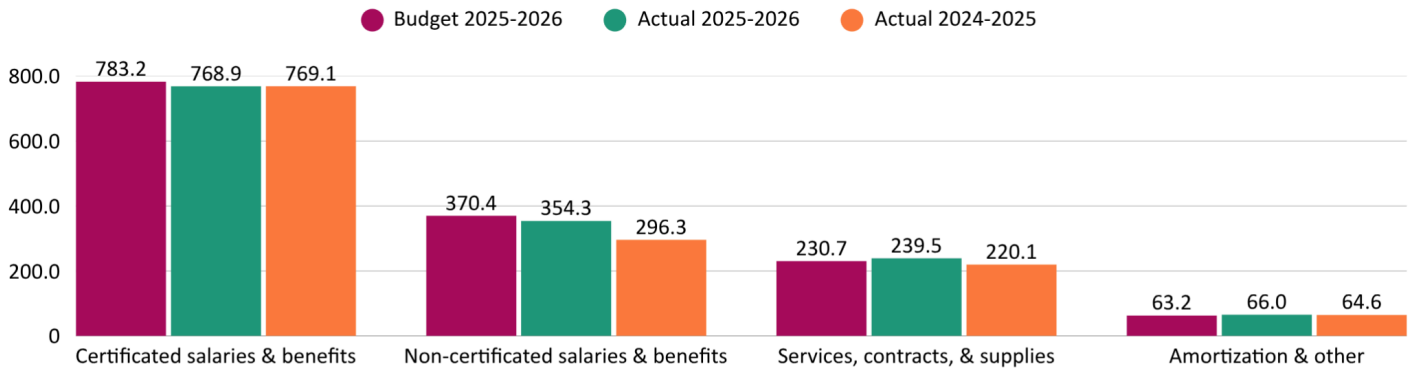

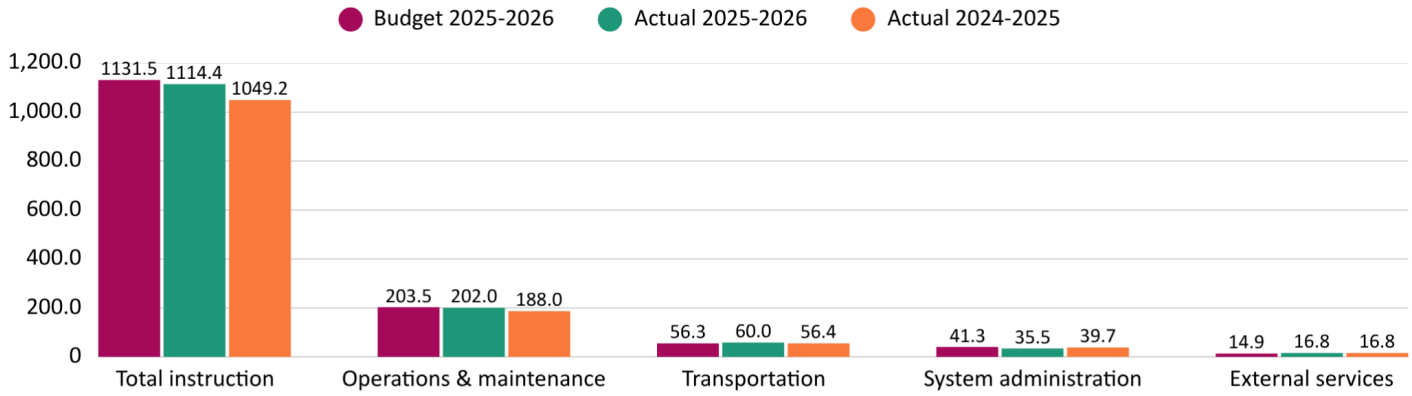

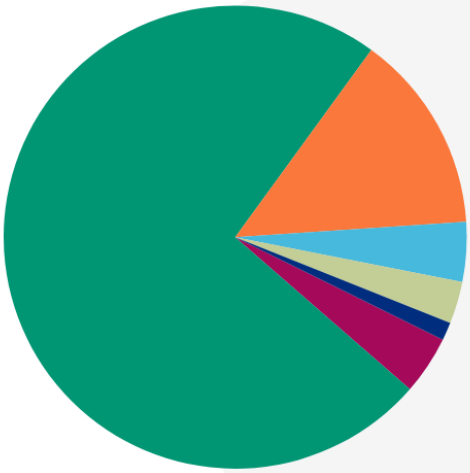

Figure 14. *Expenses by Program (in $ millions)*

- Operational expenses do not include capital expenditures.
- Total revenues exceeded expenses by $2.6 million, resulting in an operating surplus.
- 75.5 per cent of total expenses represent staffing, 15.5 per cent represent goods and services, and the remaining balance represents amortization and other.

Figure 15. *2025-2026 Expenses by Program (in $ millions)*

	$	%
Instruction - ECS	56.5	4.0
Instruction - Grade 1 to Grade 12	1,057.9	74.0
Operations and Maintenance	202.0	14.1
Transportation	60.0	4.2
System Administration	35.5	2.5
External Services	16.8	1.2
	1,428.7	**100.0**

- The Division's total operational expenses for 2025–26 were $1,428.7 million as compared to $1,350.0 million in 2024–25.
- Average per student spending for 2025–26 was $11,837 (for 2024–25 it was $11,368). This figure does not include total spending of School Generated Funds or the cost for External Services. Calculation is based on 2025–26 actual enrolment of 117,288 full-time equivalent (FTE) students (compared to 115,025 in 2024–25).

Figure 16 illustrates reserves and funds.

Figure 16. *Reserves (in $ millions)*

2025–26 changes in accumulated surplus from the prior year include:

- Increase in SGF operating reserves of $0.3 million
- Decrease in operating reserves of $6.4 million
- Decrease in capital reserves of $5.7 million

The increase in capital reserves of $6.5 million is attributed to:

- $0.6 million received for the sale of six non-operational surplus school sites.

  Offset by $6.3 million used to fund previous Board approved capital projects, including:
  - Growth and Student Accommodation Programs
  - The Division's Energy and Environmental Strategy
  - Continued construction of the Centre for Education

School Generated Funds (SGF)

- Unexpended SGF on August 31, 2026, was $6.1 million, increased from the amount at the beginning of the school year of $5.3 million.
  - $1.7 million of the current year unexpected funds is included in Deferred Revenue.
  - $1.5 million in Unearned Revenue.
  - $2.9 million in Accumulated Surplus.
- Gross receipts in SGF is comprised of:

Table 37. *Breakdown of gross receipts in school generated funds*

School Funds	Budget ($ millions)	Actual ($ millions)
Fees	16.1	15.8
Fundraising	2.2	1.4
Gifts and donations	6.2	6.5
Other sales and services	5.0	6.2
Total	29.5	29.9

- Uses of SGF totaled $22.6 million and related primarily to extra-curricular activities and School Council funded activities and initiatives.
- Additional SGF expenses of $6.5 million related to direct costs of other sales and services and fundraising.

Detailed information regarding the Division's audited financial statements can be obtained from Financial Services at (780) 970-5243 or can be viewed at the Division's website at:
https://www.epsb.ca/media/epsb/ourdistrict/districtbudget/2025-26-audited-financial-statements.pdf

The provincial roll up of jurisdictions' Audited Financial Statements is provided at:
https://www.alberta.ca/k-12-education-financial-statements.aspx.

Annual Report of Disclosures

For the 2025–26 school year, the Designated Officer did not receive any disclosures under the *Public Interest Disclosure (Whistleblower Protection) Act*.

Appendix A: Assurance Measures Evaluation Reference

Alberta Education and Childcare Assurance Measures (AECAMs) evaluation achievement is based upon a comparison of current year data to a set of standards which remain consistent over time. The standards are calculated by taking the three-year average of baseline data for each measure across all school jurisdictions and calculating the 5th, 25th, 75th and 95th percentiles. Once calculated, these standards remain in place from year to year to allow for consistent planning and evaluation.

The chart below shows the range of values defining the five achievement evaluation levels for each measure.

Measure	Very Low	Low	Intermediate	High	Very High
Student Learning Engagement	0.00–80.63	80.63–82.49	82.49–85.34	85.34–87.37	87.37–100.00
Citizenship	0.00–66.30	66.30–71.63	71.63–77.50	77.50–81.08	81.08–100.00
3-year High School Completion	0.00–65.95	65.95–74.10	74.10–84.79	84.79–89.00	89.00–100.00
4-year High School Completion	0.00–71.57	71.57–78.63	78.63–87.93	87.93–91.45	91.45–100.00
5-year High School Completion	0.00–72.59	72.59–80.82	80.82–89.18	89.18–91.96	91.96–100.00
PAT9: Acceptable	0.00–62.37	62.37–67.35	67.35–76.70	76.70–81.94	81.94–100.00
PAT9: Excellence	0.00–9.69	9.69–13.44	13.44–18.38	18.38–23.38	23.38–10
Diploma: Acceptable	0.00–62.26	62.26–73.90	73.90–82.70	82.70–85.78	85.78–100.00
Diploma: Excellence	0.00–7.27	7.27–12.34	12.34–18.40	18.40–24.08	24.08–100.00

Notes:

1. For all measures: The range of values at each evaluation level is interpreted as greater than or equal to the lower value and less than the higher value. For the Very High evaluation level, values range from greater than or equal to the lower value to 100 per cent.

Improvement Table

For each jurisdiction, improvement evaluation consists of comparing the current year result for each measure with the previous three-year average. A chi-square statistical test is used to determine the significance of the improvement. This test takes into account the size of the jurisdiction in the calculation to make improvement evaluation fair across jurisdictions of different sizes.The chart below shows the definition of the five improvement evaluation levels based upon the chi-square result.

Evaluation Category	Chi-Square Range
Declined Significantly	3.84 + (current < previous 3-year average)
Declined	1.00–3.83 (current < previous 3-year average)
Maintained	less than 1.00
Improved	1.00–3.83 (current > previous 3-year average)
Improved Significantly	3.84 + (current > previous 3-year average)

Overall Evaluation Table

The overall evaluation combines the Achievement Evaluation and the Improvement Evaluation. The chart below illustrates how the Achievement and Improvement evaluations are combined to get the overall evaluation.

	Achievement				
Improvement	**Very High**	**High**	**Intermediate**	**Low**	**Very Low**
Improved Significantly	Excellent	Good	Good	Good	Acceptable
Improved	Excellent	Good	Good	Acceptable	Issue
Maintained	Excellent	Good	Acceptable	Issue	Concern
Declined	Good	Acceptable	Issue	Issue	Concern
Declined Significantly	Acceptable	Issue	Issue	Concern	Concern

Appendix B: School Plan and Results Review

School Plan Template and Planning Guide

PLANNING FOR THE 2025–26 SCHOOL YEAR

- **Reflective Questions Template:** To support schools in the completion of their 2025–26 school plan, a template modeled on inquiry-based reflective questions that help support continuous improvement has been created. Principals are invited to work through these questions with their school community to help inform the development of this year's goals for your school plan. Each school will develop **a minimum of two goals,** with one goal related to Priority 1 of the Strategic Plan.
- Working Five Reflective Questions Template
  - Exemplar 1: Elementary (Grades 1 to 6) Literacy
  - Exemplar 2: Junior High (Grades 7 to 9) Numeracy
  - Exemplar 3: High School (Grades 10 to 12) Career Pathways
  - Exemplar 4: Priority 2 Anti-racism and Reconciliation
  - Exemplar 5: Priority 3 Sense of Belonging

WHEN COMPLETING PLANS, NOTE THE FOLLOWING:

- All schools will complete a 2025–26 Plans document.
- Principals with Pre-Kindergarten programming are to consolidate their plans for both cost centres in a single document.
- BPS is restricted to a two page limit in the Plans module.
  - Each goal has a minimum requirement of 20 characters for each text box. An error message will appear if a box is under the minimum requirement or if the plan exceeds the two page limit.
  - The box at the bottom of each goal titled "What data will you use to track continuous improvement?" has a limit of 400 characters. This section is intended to be a sentence format of the data you will be using for evidence of continuous improvement. This box has structured limitations, please use a sentence separated by commas and not a bulleted list. Exceeding this limit will result in an error in your upload.
- All schools will develop at least one goal in support of Priority 1 of the Strategic Plan, *Build on outstanding learning opportunities for all students.* This includes the Division's responsibility and commitment to improving the results of First Nation, Métis and Inuit students.
  - When setting goals, particularly for student success, consider including in your goals how your school will intentionally support First Nations, Métis and Inuit student success and Competency Five of the TQS and LQS.
  - Please see the OECD Promising Practices-Abridged report as a reference resource.
- Think about ways to engage your school community in the development of school goals. The reflective question templates and exemplars may support you in these conversations.
- The 2022–26 Four-Year Education Plan may also provide additional information helpful in developing goals.
- Review and update the SCHOOL COMMUNITY RELATIONSHIPS section of the Plans document. For more information see here.
- Spell check—the spell check function is no longer available on BPS. Please review your spelling carefully.
- Ward Trustee names—The trustee names found in BPS are current. These will be updated centrally following each municipal election.
- User Manuals for BPS Modules can be accessed under the HELP menu on Budget Planning System (BPS).

- The 2025–2026 GUIDE FOR CREATING SCHOOL PLANS can be accessed under the Plans menu, Instructions and Info submenu on Budget Planning System (BPS).

DEVELOPING GOALS

The following reflective questions are intended as a guide to support schools in the development of goals by reflecting on data, setting targets and identifying actions.

Inquiry-Based Questions to Support the Development of a School Plan

Goal __

Division Priority __

What data will you use to track continuous improvement?

400 character limit

Inquire

1. **Looking at the data, what should your focus be on? What are you observing with students/staff/families?**
   - **Please refer to specific data from multiple sources, including evidence gathered in the classroom that support your area of focus.**

2. **What driving question does your data point to?**
   - **This question will inform the development of your school goal.**

Implement

3. **What will you be doing with students/families to support achieving your school's goal (2–5 actions)?**

4. **What resources, school-based structures or processes do you need to implement to support progress towards this goal?**

5. **What professional learning or capacity building will your school team need to engage in to reach your school's goal?**

Impact

6. **What do you anticipate you will see from students/families/staff as evidence of progress towards this goal?**

7. **How will you demonstrate progress? How will you measure growth?**

Results Review Template

Reporting on the 2025–26 School Year

Division Priorities 2022–26

1. Build on outstanding learning opportunities for all students.
2. Advance action towards anti-racism and reconciliation.
3. Promote a comprehensive approach to student and staff well-being and mental health.

Based on the goals that were established for 2025–26, report on the results you achieved (with evidence, including referencing the school's Assurance Measures results, if applicable) and describe how achievement of the goal supports the above Division's Priorities (reference the priority number in your response).

Goal #1: *goal will be imported from the 2025–26 Plans*
Results Achieved: *<limit of 5000 characters per text box>*

Goal #2: *goal will be imported from the 2025–26 Plans*
Results Achieved: *<limit of 5000 characters per text box>*

Goal #3 (Optional): *goal will be imported from the 2025–26 Plans*
Results Achieved: *<limit of 5000 characters per text box>*

Challenges:
What were the biggest challenges encountered in 2025–26?

Improvement Opportunities:
What are the opportunities for improvement from 2025–26 that will inform your plan for 2026–27?

Catchment Conversation Template

First Nations, Métis, and Inuit Reporting

STUDENT FOCUS	
The academic growth and achievement of self-identified First Nations, Métis, and Inuit students.	
What actions are you taking that support progress towards this area?	
How do you know these actions are having a positive impact? (anecdotal evidence)	
What data are you using to monitor for progress? What are you observing?	
Indigenous education for all students.	
What actions are you taking that support progress towards this area?	
How do you know these actions are having a positive impact? (anecdotal evidence)	
What data are you using to monitor for progress? What are you observing?	
STAFF FOCUS	
Staff confidence to meet the learning needs of all self-identified First Nations, Métis, and Inuit students.	
What actions are you taking that support progress towards this area?	
How do you know these actions are having a positive impact? (anecdotal evidence)	
What data are you using to monitor for progress? What are you observing?	
Staff capacity to include Indigenous education across the curriculum for all students.	
What actions are you taking that support progress towards this area?	
How do you know these actions are having a positive impact? (anecdotal evidence)	
What data are you using to monitor for progress? What are you observing?	

Appendix C: Detailed Assurance Measures Results

The following tables provide a more detailed reporting of required and supplemental Assurance Measures in support of Edmonton Public Schools' AERR (*see Tables C1–C17*).

Assurance Survey

Parental Involvement Detail

Table C1. Alberta Education and Childcare Measures - Parental Involvement - Teacher Responses (Don't Know)

	Edmonton School Division (don't know)	Alberta (don't know)
To what extent are parents or guardians involved in decisions about their children's overall education	7%	4%
To what extent are parents or guardians involved in decisions about your school	14%	9%
How satisfied or dissatisfied are you that the input of parents or guardians into decisions about your school is considered	15%	10%
How satisfied or dissatisfied are you with the opportunities for parents or guardians to be involved in decisions about their children's overall education	8%	5%
How satisfied or dissatisfied are you with the opportunity for parents or guardians to be involved in decisions about your school	13%	8%

Program of Studies

Table C2. Alberta Education and Childcare Assurance Measures—Satisfaction with the opportunity for students to receive a broad program of studies including fine arts, career, technology and health and physical education.

Measure & Evaluation	Edmonton School Division						Alberta					
	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall
Overall	85.6 (n= 21,287)	84.7 (n= 21,385)	84.5 (n= 20,795)	Very High	Improved Significantly	Excellent	83.4 (n= 196,028)	83.0 (n= 190,222)	82.9 (n= 184,788)	Very High	Improved Significantly	Excellent
Parent	85.6 (n= 2,882)	83.4 (n= 3,142)	83.6 (n= 3,636)	Very High	Improved Significantly	Excellent	82.5 (n= 37,119)	82.4 (n= 34,368)	82.3 (n= 33,089)	Very High	Maintained	Excellent
Student	80.6 (n= 13,955)	79.0 (n= 14,028)	78.9 (n= 13,084)	Very High	Improved Significantly	Excellent	78.5 (n= 125,148)	77.0 (n= 122,315)	77.0 (n= 119,061)	Very High	Improved Significantly	Excellent
Teacher	90.6 (n= 4,450)	91.7 (n= 4,215)	91.0 (n= 4,075)	High	Maintained	Good	89.3 (n= 33,761)	89.5 (n= 33,539)	89.3 (n= 32,629)	High	Maintained	Good

Learning Engagement

Table C3. Alberta Education and Childcare Assurance Measures—Student Learning Engagement

Teachers, parents and students who agree that students are engaged in their learning at school.

Measure & Evaluation	Edmonton School Division						Alberta					
	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall
Overall	84.3 (n= 31,521)	83.4 (n= 30,669)	83.8 (n= 30,318)	Intermediate	Improved	Good	84.2 (n= 278,809)	83.9 (n= 269,076)	84.0 (n= 263,790)	Intermediate	Improved	Good
Parent	88.4 (n= 2,885)	86.1 (n= 3,148)	86.9 (n= 3,647)	High	Improved	Good	87.6 (n= 37,185)	87.6 (n= 34,444)	87.2 (n= 33,172)	Intermediate	Improved	Good
Student	71.0 (n= 24,188)	70.0 (n= 23,303)	70.3 (n= 22,595)	Intermediate	Improved	Good	70.2 (n= 207,847)	69.3 (n= 201,089)	69.8 (n= 197,980)	Intermediate	Improved Significantly	Good
Teacher	93.7 (n= 4,448)	94.0 (n= 4,218)	94.3 (n= 4,143)	Low	Declined	Issue	94.7 (n= 33,777)	95.0 (n= 33,543)	95.1 (n= 32,638)	Intermediate	Declined Significantly	Issue

Supports and Services

Table C4. Alberta Education and Childcare Assurance Measures—Division Supports and Services

The percentage of teachers, parents and students who agree that students have access to the appropriate supports and services at school.

Measure & Evaluation	Edmonton School Division						Alberta					
	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall
Overall	77.6 (n= 31,494)	76.6 (n= 30,647)	77.2 (n= 30,288)	Low	Improved	Acceptable	79.5 (n= 278,459	80.1 (n= 268,786)	80.2 (n= 263,504)	Intermediate	Declined Significantly	Issue
Parent	73.4 (n= 2,884)	70.1 (n= 3,148)	72.1 (n= 3,645)	Intermediate	Improved	Good	74.8 (n= 37,104)	75.5 (n= 34,400)	75.5 (n= 33,143)	Intermediate	Declined Significantly	Issue
Student	78.4 (n= 24,162)	78.0 (n= 23,279)	78.0 (n= 22,567)	Intermediate	Improved	Good	79.4 (n= 207,586)	78.7 (n= 200,841)	79.1 (n= 197,721)	Intermediate	Improved Significantly	Good
Teacher	80.9 (n= 4,448)	81.7 (n= 4,220)	81.6 (n= 4,144)	Low	Maintained	Issue	84.3 (n= 33,769)	86.0 (n= 33,545)	85.9 (n= 32,642)	Intermediate	Declined Significantly	Issue

Success at work after school and Lifelong learning

Table C5. Alberta Education Childcare Assurance Measures—Success after High School

Teachers and parents who agree that students are taught attitudes and behaviours that will make them successful at work when they finish school.

Measure & Evaluation	Edmonton School Division						Alberta					
	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall
Overall	82.7 (n= 6,926)	80.9 (n= 6,986)	82.0 (n= 7,318)	High	Improved	Good	84.2 (n= 66,650)	83.7 (n= 63,905)	83.2 (n= 62,006)	High	Improved Significantly	Good
Parent	75.1 (n= 2,640)	71.3 (n= 2,907)	73.8 (n= 3,376)	Very High	Improved	Excellent	76.7 (n= 34,404)	76.0 (n= 31,770)	75.3 (n= 30,725)	Very High	Improved Significantly	Excellent
Teacher	90.2 (n= 4,286)	90.5 (n= 4,079)	90.1 (n= 3,942)	Intermediate	Maintained	Acceptable	91.7 (n= 32,246)	91.4 (n= 32,135)	91.1 (n= 31,281)	Intermediate	Improved Significantly	Good

Table C6. Alberta Education Childcare Assurance Measures—Lifelong Learning

Teacher and parent satisfaction that students demonstrate the knowledge, skills and attitudes necessary for lifelong learning.

Measure & Evaluation	Edmonton School Division						Alberta					
	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall	Current Result	Prev Year Result	Prev 3 Year Average	Achievement	Improvement	Overall

Diploma Exams

As noted in the introduction to this report, 2025–26 diploma examinations were not evaluated against provincial standards (achievement, improvement and overall colour designations) as January 2026 diploma examinations were cancelled, thus results are not directly comparable to the provincial standard for prior years.

Appendix D: 2025–26 Division Feedback Survey Results

The DFS results are organized based on Division priorities and goals, showing the relationship between strategic initiatives and the day-to-day experiences of students, staff and families. The three years of DFS results visualized in the report linked in this appendix are organized to display year-over-year trends, showing trends and shifts within the Division's community's feedback over time. Unless otherwise indicated, the results represent the entire group of respondents.

2025–26 Division Feedback Survey Summary Report

Appendix E: Local Literacy and Numeracy Results

Reading Results (Tables E1-E3)

The following note outlines some considerations to consider when interpreting reading results data.

- Grades 1 and 2 results include students enrolled in immersion and bilingual programs who may have received either no or a reduced amount of English instruction in reading.

Table E1. Reading Results Showing All Students AT or ABOVE Grade Level
